INDEX.

VOL. XCVIII.

Illustrations.

List of Names.

A

ABERFELDY Aërial Ropeway, Messrs. John M. Henderson and Co., 228, 229
Adams' Sewage Lifts at Douglas, 117
Admiralty Steam Pumps, 138
Alberger Barometric Condenser, St. Louis Exhibition, 125
  Engine and Condenser Air Pump, St. Louis Exhibition, 126
  Horizontal Surface Condenser, St. Louis Exhibition, 126
Albion Engineering Company, Limited, Series Boiler Feeder, 305
Albula Railway, 82, 83
Allen and Co., Messrs. J. G., Oil Engine Road Roller, 327
Allen, Son and Co., Limited, Messrs. W. H., High-speed Engines, 54, 55
Allgemeine Elektricitäts Gesellschaft, Electric Lift Hoisting Equipment, 480
American Electric and Controller Company of New York Motor Speed Controller, 627
  Express Locomotives, Pennsylvania Railway, 213
  Locomotive Company, Mallet Duplex-compound Locomotive (*Supplements, September 16th, October 7th*, 1904)
Arctic Vessel, Commander Peary's New, 416, 417
Arnold, Professor, Alternating Stress Testing Machine, 227, 308
Aveling and Porter's Light Traction Engine, Royal Agricultural Society, 17
Axiom Lubrication System, 162

B

BARCLAY, Sons and Co., Messrs. A., Gasworks Locomotives, 400
Beatson Vat, Electrolytic Methods of Treating Tin Scrap, 5, 6
Bell, Sir Lowthian, 626
Bement, Mr. A., Discharge of Water with Steam from Water-tube Boilers: Cause and Remedies, 604, 605
Bengal, Navigable Canals and Steamer Routes in, 640
Benn's Air Pump, 252
Bassbrook Spinning Mills Power Plant, Messrs. John and Edward Wood, 118, 119
Bickford, J. S. V., Carburetters, 95
Birmingham's New Water Supply, 77, 78, 87
Blackstone's Oil Engine, Royal Agricultural Society, 16
Bomford and Evershed's Steam Wagon, Royal Agricultural Society, 16
Buckton and Co., Limited, J., 8in. High-speed Lathe (xiii., *Supplement, November 4th*, 1904)
Buckton and Co., Limited, Messrs. Joshua, 300-Ton Universal Testing Machine, 236, 237, 238

C

CAMPBELL Gas Engine Company, Portable Oil Engine with Reversing Gear, 594
Canadian Fisheries Cruiser Canada, Vickers, Sons and Maxim, 202, 203
Canadian Locomotive Works, A, 317, 318, 324
Capitaine, Herr Emil, 25 Horse-power Gas Launch, 389
Cardiff, Pumping Engine for New South Dock at, W. H. Allen and Co., Limited, 564, 565, 566
Carville Power Station, 254, 230, 282, 283
Chambers, Scott and Co., Electric Hauling Winch, 297
Chatham Dockyard, High Duty Pumping Plant, Messrs. Hayward, Tyler and Co., Limited, (*Supplement, November 18th*, 1904), 501
Claerwen Reservoirs, Section of, 77
Clarke-street Works, Derby, 109, 112
Clayton and Shuttleworth, Messrs., Wood Fuel Steam Road Roller, 402
Clerk, Mr. Dugald, Gas Engine, 210
Collingham, R. H., Air Compressor, 26
Conveyor Company, Limited, Coal Conveying Plant at a Manchester Power Station, 346, 354
Cornwall, Some Old Engines in, 364
Cowans, Sheldon and Co., Limited, 30-Ton Steam Jib Crane, 279
Craven Bros., Limited, 30in. Motor-driven Lathe (xvi., *Supplement, November 4th*, 1904)
Crossley Oil Engine, 47 Brake Horse-power, 246, 247
Cunard Liner Caronia, The New, John Brown and Co., Limited, 59
Curtis Steam Turbine, St. Louis Exhibition, 638, 639

D

DANISH Train Ferry Boat, 550
Darling and Sellers, 18in. Electric Shafting Lathe (i., viii., x., xi., *Supplement, November 4th*, 1904)
Dean, Smith and Grace, Limited, High-speed 28in. Lathe, 414
Dean, Smith and Grace, Limited, 16in. Motor-driven Headstock (xi., xii., *Supplement, November 4th*, 1904)
Denain Works, Indentation Tests on Steel, 426
Denison and Son, Messrs. Sam., 100-Ton Chain-testing Machine, 84
Dobson and Co., Messrs., Piston and Valve, 611, 612
Douglas, Adams' Sewage Lifts at, 117
Dover Colliery, 176, 177, 199, 200

E

EAST London Water Company, New Pumping Plant, Mr. W. B. Bryan, 328
Egypt and the Soudan, Irrigation Projects—Map, 152
Elan Reservoirs, Section of, Birmingham Water Supply, 77
Elderslie Graving Dock, Power Gas Plant, 151
Elsworth, Jno. F., Barrel Truck, 93

F

FAWCETT, Preston and Co., Limited, Vertical Compound Pumping Engine, 36
Foden's Light Traction Engine, Royal Agricultural Society, 17

G

GAINSBOROUGH Waterworks, New Pumping Station, Mr. Percy Griffith, 105
Gelsharpe Vat, Electrolytic Methods of Treating Tin Scrap, 5
German Battleship Deutschland, Herr Fried. Krupp, 618, 619
Glommen Hydraulic Power Works, Norway, 197, 198
Gothic Two-cycle Oil Engine, Royal Agricultural Society, 16
Greenwald Company, The I. and E. Valves and Valve Gear, 600 Horse-power Cross-compound Engine, 515
Guy's Hospital, Engineering at, 465, 466
  Engine-room, Kirkland and Capper, 412, 413

H

HANDYSIDE and Co., Limited, Clarke-street Works, 109, 112
Hardie-Thompson Water-tube Boiler, 374
Hardy and Padmore, Messrs., Vacuum Engine, 304
Harrisburg Machine Company, Tandem Compound Horizontal Engine (600 Horse-power), St. Louis Exhibition, 462, 463, 464
Hattersley and Sons, Limited, Geo., Automatic Loom, 31, 32
Hebburn, New Graving Dock at, 390, 391
"Heclon" Gyratory Rock and Ore Breaker, Hadfield's Steel Foundry Company, Limited, 424, 425
"Heclon" Armour Piercing Projectiles, 376
Herbert, Limited, Alfred, High-speed Headstock (ii., *Supplement, November 4th*, 1904)
H.M. Cruiser Black Prince, Thames Ironworks and Shipbuilding Company, Limited, 368, 369, 470; Boilers and Engines of, 643, 644, and *Supplement, December 30th*, 1904
H.M.S. King Edward VII., First-class Battleship, 439
H.M.S. Prince of Wales, 7500 Indicated Horse-power Triple-expansion Engines (*Supplement, July 1st*, 1904), 12
Hetherington and Sons, J., High-speed Headstock (ii., iv., *Supplement, November 4th*, 1904)
Hinksford Pumping Engines, Fawcett, Preston, and Co. (*Supplement, July 22nd*, 1904), 28, 36, 40
Holzwarth Steam Turbine, 589, 590
Hopkinson, Professor, Exhaust Gas Calorimeter, 211
Houldsworth Roller Bearing, 44
Hoy, Mr. H. A., "Pop" Safety Valve, 329
Hozier Automatic Carburetter, 642
Hudson, Mr. Robert, Portable Rivet Furnace, 453
Hulse and Co., Limited, Circular Shears, 322
Hulse and Co., 12in. High-speed Headstock (v., vi., vii., *Supplement, November 4th*, 1904)
Hummono, The Motor Yacht, 332

I

INDUSTRIAL Improvements Company, Water-seal Steam Trap, 504
Isabella Furnace of the Carnegie Steel Company, 505
Italian Battleship Vittorio Emanuele III., 572

J

JACKSON and Co., Limited, P. R., Helical Spur Wheels for Rolling Mill Work, 454
Japanese Armoured Cruisers, Messrs. Gio. Ansaldo, Armstrong and Co., 446
Just-Hatmaker Milk-drying Machine, Royal Agricultural Society, James Milne and Sons, Limited, 16

K

KERR, Stuart and Co., Narrow-gauge Locomotive, Mexican Railways, (*Supplement, December 2nd*, 1904), 540
Kerr, Stuart and Co., Limited, Steam Motor Coach for the Maharajah of Scindia, 477
Kjellin, F. A., Electric Steel Furnace at Gysinge, Sweden, 46
Kleen Dust Collector, The, 117
Knowlmere Manor, Concrete Bridge, Mr. T. G. Mouchel, 178
Kobe Floating Dock, Pumping Engine, Messrs. W. H. Allen, Son and Co. 91

L

LANCASHIRE Dynamo and Motor Company, Limited, Works of the, 493, 496, 497
Lancashire Steam Motor Company, Steam Wagons, 270, 271, 272, 273
Lang and Sons, John, Surfacing and Boring Lathe, (ix., xv., xvi., *Supplement, November 4th*, 1904)
Leek and Manifold Light Railway, Rolling Stock on the, 387, 394
Leith, Dock Extensions, 550
Liverpool Docks, 492
Lloyd's Register, Experiment on some Structural Details, 527
Loire, Raking Dredge on the, 530
London and North-Western Four-coupled Passenger Engine, Mr. G. Whale (*Supplement, October 14th*, 1904), 361
London and South-Western Railway, 40-Ton Hopper Wagons, Messrs. G. R. Turner, Limited, 614, 623
Lucal Oil Fuel Burner, The, 330
Luke and Spencer, Limited, Tool Grinder, 504

M

McLAREN, J. and H., 1400-Kilowatt Triple-expansion Engine, Leeds Electricity Works, 612, 613
Mallet Duplex Compound Locomotive, Baltimore and Ohio Railway, The American Locomotive Company (*Supplements, September 16th and October 7th*, 1904), 300
Mayence, Railway Bridge near, 468, 469
Merryweather and Co., Limited, Vacuum Cesspool Exhauster, 530
Metropolitan Railway, Electrical Train, 591
  5000 Horse-power Turbo-electric Generator, 591
  Boiler House, Neasden Power Station, 592
Mexican Railways, Narrow Gauge Locomotive, Kerr, Stuart and Co., Limited (*Supplement, December 2nd*, 1904), 540
Middlesbrough Dock Electric and Hydraulic Power Plant, V. L. Raven, 139, 140
Midland Railway Steam Coach, Mr. R. M. Deeley, 204, 206
Miley Machine Tool Company, High-speed 12½in. Lathe, 442, 443
Miley's Machine Tool Company, Limited, 12in. Headstock, (xi., *Supplement, November 4th*, 1904)
Milner's Speed Indicator, 551
Muirhead, Mr. Erskine, Multiple Band Saw, 366
Musker, Limited, Messrs. C. and A., Flag Press for Destructor Clinker, 41

N

NASMYTH'S Drilling Machine, 52
Nasmyth Hammer, 1, 2
Neckar, Concrete Bridge over the, 650
Neilson, Mr., on the Gas Turbine, 414
New York Central and Hudson River Railway Electric Locomotives for, 542, 543, 544, 545
Niagara, Power Development at, 593, 598
Niclausse Boiler Works, Queensferry, 7, 8, 9
Nile Basin, Map of the Upper, 243
Nile Irrigation, 243, 267, 289
North-Eastern Electric Train, Six-coach, 262
North-Eastern Railway and upon Tyneside, Use of Electricity on, 254, 260, 261, 282, 283

P

PARIS, Motor Cars in, 642
Paris-Orleans Railway, Four-cylinder Compound Locomotive, Soc. Alsacienne de Construction Mécaniques, 595
Parsons-Westinghouse Steam Turbine, St. Louis Exhibition, 639
Peary's New Arctic Vessel, 416, 417
"Perfect" Gas Engine Starter, Messrs. The Sheffield Engineers, Limited, 238
Pickles and Son, John, Planing and Glass-papering Machine, 166
Pierson Gas Producer, 450
Plumstead, Clinker Brick-making Plant at, Queen's Engineering Co., Limited, 214
Pollak-Virag Rapid Telegraph, 596
Puget Sound Power Company, Sketch Map, 226
Pulsometer Engineering Company, Reading Sinking Pump, 319
Purfleet, Ferro-concrete Bridge, 423
Pyrodyen Steam Wagon, The, 387, 393

Q

QUEENSFERRY, Niclausse Boiler Works, 7, 8, 9
Queensland Government Railways, Eight Wheels Coupled Goods Locomotive, Mr. Geo. B. Nutt (*Supplement, August 5th*, 1904)

R

RANSOME and Co., Limited, Horizontal Log Band Saw, 398, 399
Ransomes, Sims, and Jefferies, Messrs., Petrol Agricultural Tractor and Plough, Royal Agricultural Society's Show, 42
Rateau, Prof. A., Regenerative Steam Accumulator, 4
Reading Sinking Pump, 319
Reavell and Co., Messrs., Pneumatic Spring-testing Machine, 44
Reichel, Herr M., Automobile Steam Fire Engines, 163
Reisert Automatic Water Softener, Royles Limited, 653
"Richardson" Steam Pump, 188
Richmond and Co., Messrs. J., Press Button Electric Lift, 652
Robey and Co., Limited, Compound Winding Engine, 181
Robinson Steam Excavator, The, 350
Rover Motor Car, The, 351
Rowan and the Buckley Piston Rings, The, 384
Royce, Limited, Messrs., Electrically-driver Transporters, 650
Royles, Limited, Reisert Automatic Wate Softener, 653
Ruston, Proctor and Co., Limited, Steam Navvy, 296
Ruston, Proctor and Co., Tandem Compound Drop Valve Engine (*Supplement, September 2nd*, 1904)
Rye, New Bridge over the Rother at, Mr. F. C. Tempest, 58, 62, 128, 129

S

SABOURET, M., Method by which a Full and Minute Report can be Drawn of the State of Permanent Way, 66
St. Louis Exhibition, Locomotive Testing Plant, (*Supplement August 19th*, 1904)
  Four-cylinder Compound von Borries Locomotive, 259
  Power Plant, 80, 81, 103

165856

St. Louis Exhibition, Steam Engines at, 222, 223, 224, 249, 250, 294, 295, 337, 338, 339, 367, 409, 410, 515, 516
Structural Work of its Buildings, 33, 57
"Saltley" Lathe Carrier, 551
Scott and Co., Messrs., 7500 Indicated Horse-power Triple-expansion Engines H.M.S. Prince of Wales (*Supplement, July 1st*, 1904), 12
Shanghai Waterworks, 602, 603
Sharp's Slot Drilling Machine, 52
Shaw, Mr. Leonard, Automatic Blue Printing Machine, 451
Simplon Railway Locomotive, 1 in 40 Grades, 570
Simplon Tunnel, Hot Springs and the, 179, 245, 341, 385, 415, 489, 568, 569
Simplon Tunnel, Pumping Plant, 245
Smith and Coventry, 15½in. High-speed Lathe (vii., ix., x., *Supplement, November 4th*, 1904)
Planing Machine with Cushioned Drive, 304
Société Anonyme des Etablissements Delaunay Belleville, 1500 Horse-power Six-cylinder Quadruple Expansion Engine, 367
Société Bollinckx, Telescopic Steam Engine Valve Gear, 411
Soissons, Armoured Concrete Skew Bridge at, 342, 343
South London Conduit Tramways, Brixton and Streatham Branch, 290, 291, 292
Spong and Co., Messrs., Sensitive Drilling Machine, 350
Starr Brass Indicator, The, 479
Stirling Gas-fired Boiler, 234
Stoke Canon, Bridge at, 494
Stothert and Pitt, Limited, 50-Ton Electric Crane, 161
Swansea, New Dock, 109
Sydney Harbour Bridge, Messrs. J. Stewart and Co., 153, 154, 155
Sykes Hammer, 2
"Symbol" Steam Valve, Messrs. Thompson Bros., 329

T

TANGYE Tool and Electric Company, Limited, 24in. Headstock (xiii., xiv., xv., *Supplement*, November 4th, 1904)
Taylor and Challen, Limited, Belt-driven Die Press, 71
Thames Passenger Steamers, The London County Council, 541, 620
Thirlmere Water Pipes, Laying Conduit across Scardale Valley, 580, 581
Thryburgh Colliery, Kilnhurst, Coal-screening Plant, Graham, Morton and Co., Limited, 552, 553
Thusis, Railway Bridge over the Rhine at, 512, 513, 519
Triumph, H.M. First-class Battleship, 522
Turbigo, Italy, The Hydro-electric Power Station, 622
Tyneside, Railway and Tramway System on, 254, 260, 262, 275, 282, 283

V

VAUXHALL Bridge, New, Mr. Maurice Fitzmaurice, 437
Vulcan Foundry Company Colonial Locomotives, 158
Vulcan, Steam Bucket Dredger, Messrs. Ferguson Bros., 420

W

WADKIN Wood-worker, The, 502, 503
Wakefield and District Light Railways, 472, 476
Wallach Bros., Painting Machine, 304
Ward, Haggas and Smith, Horizontal Drilling and Milling Machine, 645
Webster and Bennett, Messrs., 30in. Double-boring Mill, 320, 321
Westinghouse Engine and Alternator, 222
Weston, A. T., Stresses in Thin Cylinders Subjected to Internal Pressure, 298
Wheeler, Mr. W. H., Measurement of Running Water in Rivers and Open Channels, 563, 564
Whitaker Bros., Steam Crane Excavator, 116
Wiener, A. F., Vanadium Steel, 18
Wilkinson and Sons, G., Treble-geared High-speed Lathe, 645
Wilkinson, H. L., Wheel Marks on Roaring Rails, 538
Worthington Pump Company, Horizontal Dry Vacuum Pump, St. Louis Exhibition, 174, 175

Subject Matter.

A

ADHESION of Timber Piles to Concrete, 167
Aërial Ropeway, Aberfeldy, 228, 229
Air Compressor, R. H. Collingham, 26

B

BALLISTIC Explorer, 67
Barometric Condenser, The Alberger, 125
Barrel Truck, Jno. F. Elsworth, 93
Boiler Feeder Series, Albion Engineering Company, Limited, 305
Furnace with Local Burner, 320
Gas-fired, The Sterling, 234
Water-tube, The Hardie-Thompson, 374
Works, Niclausse, Queensferry, 7, 8, 9
Boilers, Babcock and Wilcox, H.M. Cruiser Black Prince, 614
Boilers, Water-tube, Discharge of Water with Steam from, Cause and Remedies, Mr. A. Bement on, 604, 605
Boring Mill, 30in., Double, Messrs. Webster and Bennett, 320, 321
Brick-making Plant, Clinker, Plumstead, 214
Bridge, Concrete, over the Neckar, 650
Ferro-concrete, Purfleet, 428
New Vauxhall, 437
Railway, near Mayence, 468, 469
over the Rother at Rye, New, Mr. F. C. Tempest, 58, 62
Rye Railway, Reconstruction of, Mr. P. C. Tempest, 128, 129
at Soissons, Armoured Concrete Skew, 342, 343
Stoke Canon, 494
Sydney Harbour, Messrs. J. Stewart and Co., 153, 154, 155
Railway, Thusis, 512, 513, 519

C

CALORIMETER, Exhaust Gas, Professor Hopkinson, 211
Canals and Steamer Routes, Navigable in Bengal (with Map), 640, 641
Carburetters, J. S. V. Bickford, 95
Carburetter, Hozier Automatic, 642
Chain-testing Machine, 100-Ton, Messrs. Sam. Denison and Co., 84
Coal-screening Plant, Graham, Morton and Co., Limited, 552, 553
Condenser, Barometric, The Alberger, St. Louis Exhibition, 125
Condenser, Horizontal Surface, The Alberger, St. Louis Exhibition, 126
Colliery, Dover, 199, 200
Conveying Plant, Coal, Manchester Power Station, Conveyor Company, Limited, 354
Conveying Plant, Coal and Ash, Conveyor Company, Limited, 346
Crane Excavator, Steam, Whitaker Bros., 116
50-Ton Electric, Stothert and Pitt, 161
30-Ton Steam Jib, Cowans, Sheldon and Co., Limited, 279

D

DIE Press, Belt-driven, Taylor and Challen, Limited, 71
Dock Extensions, Leith, 550
Kobe Floating, Pumping Engine, 91
Liverpool, 492
New Graving, Hebburn, 390, 391
Swansea, New, 109
Dredge on the Loire, Raking, 530
Dredger, Vulcan, Steam Bucket, Messrs. Ferguson Bros., 420
Drilling Machine, Nasmyth's, 52
Sensitive, Messrs. Spong and Co., 350
Slot, Sharp's, 52
and Milling Machine, Messrs. Ward, Haggas and Smith, 645
Dust Collector, The Kleen, 117
Dynamo and Motor Works, Lancashire, 493, 496, 497

E

ELECTRIC and Hydraulic Power Plant, Middlesbrough, V. L. Raven, 139, 140
Lift Hoisting Equipment, Allgemeine Electricitäts Gesellschaft, 480
Electric Generator, Turbo-, Boiler House, Neasden Power Station, 592
Electrical Train, Metropolitan Railway, 591
Electricity on North-Eastern Railway and Tyneside, Use of, 254, 260, 261, 282, 283
Electrolytic Methods of Treating Tin Scrap, 5, 6
Engineering at Guy's Hospital, 465, 466
Engines, Automobile Steam Fire, Herr M. Reicher, 163
Compound Winding, Robey and Co., Limited, 181
Gas, Mr. Dugald Clerk, 210
High-speed Enclosed, Design of, 384, 435, 436, 490, 559, 611, 612
Internal Combustion, 148, 149, 150, 173
Modern, Messrs. W. H. Allen, Son and Co., 54, 55
Light Traction, Messrs. Aveling and Porter, Royal Agricultural Society, 17
Light Traction, Foden's, Royal Agricultural Society, 17
Oil, Blackstone's, Royal Agricultural Society, 16
Crossley Brothers, 246, 247
Gothic Two-cycle, Royal Agricultural Society, 16
Portable, Campbell Gas Engine Company, 594
Old, in Cornwall, 364
Pumping, Hinksford, Fawcett, Preston and Co. (*Supplement, July 22nd*, 1904), 28, 36, 40
Pumping, Kobe Floating Dock, Messrs. W. H. Allen and Co., 91
Room, Guy's Hospital, 412, 413
(1200 Horse-power), Six-cylinder Quadruple-expansion, Société Anonyme des Etablissements Delaunay Belleville, 367
Starter, The "Perfect," 238
Steam, St. Louis Exhibition, 222, 223, 224, 249, 250, 294, 295, 337, 338, 339, 367, 409, 410, 515, 516
Tandem Compound Drop Valve, Ruston, Proctor and Co. (*Supplement, September 2nd*, 1904)
Tandem Compound Horizontal (600 Horse-power, Harrisburg Machine Company, St. Louis Exhibition, 462, 463, 464
(7500 Indicated Horse-power), Triple-expansion, H.M.S. Prince of Wales, (*Supplements, July 1st*, and *December 30th*, 1904), 12, 643
Engines, (1400 Kilowatt), Triple-expansion, J. and H. McLaren, Leeds Electricity Works, 612, 613
Vacuum, Messrs. Hardy and Padmore, 304
Excavator, Steam, Mr. A. W. Robinson, 350
Excavator, Steam Crane, Whitaker Brothers, 116
Exhibition, St. Louis, Power Plant, 81, 103
Exhibition, St. Louis, Structural Work of its Buildings, 33, 57

F

FIRE Engines, Automobile Steam, Herr M. Reichel, 163
Flag Press for Destructor Clinker, Messrs. C. and A. Musker, Limited, 41
Furnace, Electric Steel, Gysinge, Sweden, F. A. Kjellin, 46
Furnace, Isabella, Carnegie Steel Company, 505

G

GAS Power Plant for Elderslie Graving Dock, 151
Gas Producer, Pierson, 450
Grinder, Tool, Messrs. Wadkin and Co., 504
Gyratory Rock and Ore Breaker, The "Heclon," 424, 425

H

HAMMER, Nasmyth, 1, 2
Hammer, Sykes, 2
Helical Spur Wheels for Rolling Mill Work, P. R. Jackson and Co., Limited, 454
Hospital Engineering at Guy's, 412, 413, 465, 466
Hydraulic Power Works, Norway, Glommen, 197, 198
Hydro-electric Power Station, Turbigo, Italy, 622

I

INDICATOR, Starr Brass Engine, 479
Irrigation Projects in Egypt and the Soudan Map, 152

L

LATHE, 8½in. Capstan, Tangye Tool and Electric Company, Limited, 630
Carrier, "Saltley," 551
High-speed, Buckton and Co., Limited; Craven Bros., Limited; Dean, Smith and Grace, Limited, (414); Darling and Sellars; Herbert, Limited; Hetherington and Sons; Hulse and Co.; Lang and Sons; Smith and Coventry; Tangye Tool and Electric Company (*Supplement, November 4th*, 1904)
High-speed 12½in., Miley Machine Tool Company, 442, 443
Treble-geared High-speed, G. Wilkinson and Sons, 615
Launch Gas Engine, Herr Emil Capitaine, 389
Lift, Press Button Electric, Messrs. J. Richmond and Co., 652
Locomotives, Colonial, Vulcan Foundry Company, 158
Eight Wheels Coupled Goods, Queensland Government Railways, Mr. Geo. B. Nutt (*Supplement, August 5th*, 1904)
Electric, for the New York Central and Hudson River Railway, 542, 543, 544, 545
Electric Goods, North-Eastern Railway, 262
Express, Pennsylvania Railway, 213
Four-coupled Passenger, London and North-Western Railway, Mr. G. Whale (*Supplement, October 14th*, 1904), 361
Four-cylinder Compound Von Borries, St. Louis Exhibition, 259
Four-cylinder Compound, Paris-Orleans Railway, Soc. Alsacienne de Constructions Mécaniques, 595
Gasworks, Messrs. A. Barclay, Sons and Co., 400
Mallet Duplex Compound, Baltimore and Ohio Railway, The American Locomotive Company (*Supplements, September 16th* and *October 7th*, 1904), 300
Narrow-gauge, Mexican Railways, Kerr, Stuart and Co., Limited (*Supplement, December 2nd*, 1904), 540
(1 in 40 Grades), Simplon Railway Tunnel, 570
Testing Plant, St. Louis Exhibition (*Supplement, August 19th*, 1904)
Works, A Canadian, 317, 318, 324
Loom, Automatic, Geo. Hattersley and Sons, Limited, 31, 32
Lubrication System, The Axiom, 162

M

MACHINE Tools, Some Early, 1, 52
Maps, Nile Irrigation Scheme, 243, 267, 268, 289
Meters for Measuring Running Water, Mr. W. H. Wheeler on, 563, 564
Milk-drying Machine, The Just-Hatmaker, Royal Agricultural Society, 16
Mill, 30in. Double-boring, Messrs. Webster and Bennett, 320, 321
Motor Car, The Rover, 351
Cars in Paris, 642
Car Works, Steam Wagons of the Lancashire Steam Motor Company, 270, 271, 272, 273
Coach, Midland Railway, Mr. R. M. Deeley, 204, 206
Motor Coach, Steam, for the Maharajah Scindia, Kerr, Stuart and Co., Limited, 477
Speed Controller, American Electric and Controller Company, of New York, 627
Yacht Hummono, 332

N

NAVVY, Steam, Ruston, Proctor and Co., Limited, 296

A

ABERFELDY Ropeway, 229, 229, (252)

Accidents, Explosions, Fires:
Bridge Destroyed by Wind, A Mississippi, 590
Bursting of Reservoir in North Carolina, (471)
Colliery Cage Accidents, Preventing, (529)
Colliery, Fife Coal Company's, New Pit, (230)
Due to Combustion within Air Compressors, Mr. W. L. Saunders' Discussion on A. R. Ledoux's Paper on, 10
Eston Steel Works, Explosion of Furnace, (40)
Explosion, Acetylene Gas, in Chicago, (646)
Boiler, A Curious Case of Corrosion, 115, 131
Boiler, in Paris, 38, 63, 93
Boiler, A Remarkable, 280, 301
Coal-dust or Fire-damp, (393)
Ebbw Vale Iron and Steel Works, (621)
Home-office Report of Accidents to Workpeople in Mines and Quarries, (401), (406)
Live Rail, Death Caused by Stepping on a, 207
Live Tramway Wire, Fall of a, (199)
Railway Accidents—*see* Railway
Robinson Deep Cage Disaster, 71, (582)

ADHESION of Timber Piles to Concrete, 167
Admiralty, Lords Commissioners' Announcements respecting Changes at Examinations of Engineer Cadets, 120
Admiralty, Standing Committee on Machinery Design Appointed by the, (182)
Aërial Appliance without Balloon that Accomplishes a Kilometre without Touching Earth: Prize Offered, (621)
Aërial Ropeway at Aberfeldy, 228, 229, (252)
Aërostation-Scientific, International Congress of, at St. Petersburg, (299)
Agricultural Implements from Chicago, Increased Output, (61)
in Corunna, Demand for, (182)
German, for Siberia, (621)
and Machinery in Yeniseisk, Demand for, (423)
Machinery in South Russia, Demand for, (445)
Tractor, Petrol, Messrs. Ransomes, Sims and Jefferies, 42
Air Compressor, The, R. H. Collingham, No. 3, 26 (for Nos. 1 and 2 *see* 558, 627, Vol. XCVII. of THE ENGINEER)
Compressors, Causes of Explosion in, 481
Ejectors, 532, 551
Experiments of Canovetti at Zossen, (345)
Liquid, Commercial Possibilities of, 612
Pumps, 252, 280, 375, 427, 479
Airship, Captain T. S. Baldwin's, (445), (498)
Airship, The Lebaudy, (498)
Alcohol, American and Industrial, 64
as Competitor of Electricity in Brazil, (419)
Duty-free, 525
Industrial, 633
for Industrial Purposes, Duty-free, (252)
for Manufacturing and Scientific Purposes, Use of, (310)
Untaxed, for Manufacturing and Other Purposes, (134)
Alkali Acts, The, 102
Alloys, Aluminium, Electric Conductivity of Certain, 249
Copper-Aluminium, Effect of London Atmosphere on Conductivity of, (299)
Iron and Its, 248
Magnetic, their Production from Non-Magnetic Metals, (445)
of Manganese, Copper and Aluminium, The Heusler, 248
Almanacs, Diaries, &c., 582, 632, 654
Alum, Raw, Exported to France from Civita Vecchia, (134)
Aluminium and Its Alloys, Manufacture and Cost of, Professor T. Turner on, 456
Aluminium, Davy's Attempts to Prepare, (646)
Amalgam for Stopping Holes, (85)
Amalgamation, Important, (491)
American and Industrial Alcohol, 64
Ankylostomiasis, Dr. Charles Porter's Lectures on, (217)
Antarctic Exploration, 575
Anti-dust League, Paris, (35)

Appointments and Resignations
Appointments:
Ball, Mr. S., (507)
Bryan, Mr. W. B., (11)

Appointments and Resignations
Appointments (*continued*)**:**
Carmichael, Mr. G. H., (607)
Coker, Mr. E. G., (452)
Dalby, Mr. W. E., (157)
Garstin, Sir Wm., (471)
Golding, Mr. H. A., (393)
Grindley, Dr. J. H., (451)
Hall, Mr. Geo., Master Cutler, (355)
Hurst, Mr. John, (393)
Kapp, Professor, (654)
Last, Mr. W. L., (230)
Marsh, Mr., (498)
Osler, Mr. Wm., (370)
Outhwaite, Mr. Harry, (21)
Owen, Mr. W. H., (535)
Palmer, Mr. C. S. R. (253)
Salter, Mr. E. E., (253)
Sandhurst, Rt. Hon. Lord, (445)
Shaw, Mr. J. B., (299)
Smith, Mr. Allison, (529)
Wailes, Mr. W. C., (286)
Watts, Mr. Philip, (646)
Windsor-Richards, Mr. F., (286)

Resignations:
Barry, Sir J. W., (498)
Beckwith, Mr. J. C., (73)
Blair, Mr. A. G., (393)
Burdon-Sanderson, Sir John Scott, (370)
Crow, Mr. W. H., (73)
Drury, Mr. H. G. (597)
Ellis, Mr. J. D., (21)
Hartley, Sir Chas., (498)
Proctor, Mr. B. G., (597)
Unwin, Prof., (157)
Wakelam, Mr. S., (314)
Williams, Mr. C., (73)

APPRENTICE Club Formed at Stretford, (134)

Armour Plates:
Admiralty Orders Placed in Sheffield, (143), (355), (355)
ARMSTRONG, Whitworth and Co., Sir W. G., Acquire an Interest in the Firm of Ansaldo and Co., Genoa, (310)
Armstrong, Whitworth and Co., Sir W. G., Gift to Funds of College of Science at Newcastle, (117), (122)
Asbestos Output, Quebec, (253)
Asbestos Production, United States, (276)
Ashmore, Mr. Wm., 593
Asphalt in the Caucasus, Immense Beds Discovered, (419)
Asphalt Mending, Chicago, Machine for, (35)
Asphaltum for Protecting Iron Pipes, Use of, (230)

Association, Automobile Protection:
Monthly Meeting, Financial Report, (349), (452)

Association, British Dairy Farmers':
Dairy Show, 1904, 349

Association, British Foundrymen's:
First Annual Convention to be Held at Manchester, (108). (138)

Association, British, of Managers of Textile Works:
Gas, Oil, and Steam for Power, Mr. M. Longridge, 377

Association, British Weights and Measures:
Formation of, and its Purposes, (218)

Association of Gas Managers, North British:
Address by Mr. Robertson, the President, Containing Reference to the Ideal Gas Retort, (137)

Association, Geologists':
Conversazione, (406)

Association of Engineers, The Leeds:
Anniversary Dinner, Thirty-ninth, (606)
Opening of the Winter Session, Mr. G. B. Goldsack's Address, (374)
Boilers, Water-tube, Recent Improvements in, Mr. J. C. Jefferson, 456
Steam Stop Valves and Gauges, Mr. A. H. Hopkinson on, (556)

Association of Engineers, Manchester:
Economic Value of Cast Iron, Mr. W. H. Pretty, 605, (646)
Engine Shaft Bearings, Adjustments and Alloys of, Mr. W. Turner, 549
Open Meeting, (378)

Association of Engineers, Manchester (*continued*)**:**
Riveted Joints, Mr. C. J. Seaman, 508
Temperature Entropy Diagrams, Mr. G. J. Wells, (432)
Visit to the British Thomson-Houston Works, 121
Visit to the Stuart-street Electrical Power Generating Station, Manchester, (378)
Presentation of "Constantine Gold Medal" to Mr. W. E. Storey, Annual Conversazione, (355), (378)

Association of Engineers, South African:
South African Mining and the Inventor, Mr. D. Gilmour, 322, 353

Association, Incorporated Municipal Electrical:
Annual Meeting, (46)

Association of Mechanical Engineers, Birmingham:
Engineering Works Policy and Modern Competition, Mr. W. Bardill, (483)
Opening Meeting, (350)
Visit to Works of Thos. Firth and Sons, Sheffield, (96)
Wheel Gearing, Mr. W. H. Thornbery, (418), 545

Association, National Founders':
Announcement made at the Cincinnati Meeting, (579)

Association of Railway Locomotive Engineers of Great Britain and Ireland:
President, Mr. Jas. Holden, (570)

Association of Teachers in Technical Institutes:
Large Representative Meeting, (470)

Association, Tramways and Light Railways:
Meetings and Papers to be Read at, (406)
Permanent Way for Tramways, Mr. Connett, 575
Programme of the Vienna Congress, (258)
Speed Allowances on Tramways and Light Railways, Mr. A. R. Fearnley on, 452
Tramway Car Wheels and Rails, Cost and Maintenance of, Mr. A. N. Banister, (452)
Ticket Checking, Systems of, Mr. F. Coutts, (452), (470)
Regenerative Control Systems, Mr. A. Raworth, (452), (470)

Association of Waterworks Engineers, British:
Ninth Winter Meeting, Programme, 551

Association of the Witwatersrand Mechanical Engineers:
Tailings Elevators, Messrs. W. H. Wood and E. J. Laschinger, 430

AUSTRALIAN Hardwoods, Ravages of Ship Worms on, 418
Automatic Alarm, Danish Invention, (471)
Axiom System of Lubrication, The, 162

B

BACON, Mr. J. Mackenzie, 650
Bailey, Mr. Benjamin, 187
Baldwin Airship, (445), (498)
Ball Bearings, 14, 43, 93
Barrel Truck, 93
Batchelor Pneumatic Despatch System, The, 166
Batey, Mr. W. J. S., (423)
Bearings, Ball, 14, 43, 93
Bearings, Roller, 44, (96)
Bedlington, Mr. Richard, 303
Belgian Engineers, Visit of, (227)
Belk, Mr. Charles, 549
Bell, Sir Lowthian, 626, (634), (655)
Bell, Sir Lowthian, His Gift to the Armstrong College, (21)
Belt Speed Recommended by Mr. Taylor, (85)
Belts, Care and Usage of, 92
Ben Nevis Observatory to be Closed, (323), 579
Bicycle Trade of Japan, (471), 579
Bicycles, Sale of, in Chicago, (61)
Billinton, Mr. Robert John, his Successor, 478, (498)

Bills:
Anderton Lift, (546)
Hall-marking of Foreign Plate, Royal Assent to, (121), (217)
Lancashire and Yorkshire Railway (Steam Vessels), (35)
Manchester Ship Canal, Unopposed, (157)
Port of London, 514
Private, and the Board of Trade, 480
Private, Deposited for Next Session, (546)
Railway, (74), (646)
Thames Conservancy, (597)
Harbour, Construction of Dam, (646)
Passenger Steamboat Service, (60)

BIRMINGHAM'S City Debt, (20)
Birmingham Tame and Rea Drainage Works, (483)
Birmingham University, Chair of Electrical Engineering Established, (603)
Blast Furnace Reactions, 397
Blasting by Steam, S. and A. Rogers, U.S.A., (227)
Blue-printing Machine, An Automatic, Mr. L. Shaw, 451

Boilers:
Babcock and Wilcox, H.M. Cruiser Black Prince, 644
Circulation in, Donald H. Lea, 156, 235; I. D., 187
Corrosion, Curious Case of, 115, 131
Coverings, 131, 156
Dürr at St. Louis Exhibition, 104
Energy, Steam, 13
Explosions—*see* Accidents, Explosions, Fires
Failure, A Mysterious, 280, 301
Feeder, A Series, 305
Feed-water Heating, 184, 213
Inspection, Messrs. Jesse Tildesly and Co., Fined for Omitting, (597)
"Live Steam" Feed-water Heating, 184
Navy, 159, 185, (370)
Niclausse and the Queensferry Works, 7, 8, 9, (651)
Niclausse at the St. Louis Exhibition, 103
Report of the Committee on, 137
Tubes, Corrugated, (64)
Water Circulation in, H. Coke Powel, 110
Water, Treatment of, American Softening Plants, (239)
Water-tube, Mr. A. Bement on Priming and Baffle Plates, 547
on the Counter-current System, (230)
Discharge of Water with Steam from: Cause and Remedies, Mr. E. Bement on, 604, 630
The Hardie-Thompson, 374
Mr. J. C. Jefferson on Recent Improvements in, (456)
Works, Niclausse, Queensferry, 7, 8, 9
Water-tube, and Reducing Valves, Letters on, 252, 280, 307, 331, 352

BORING Mill, 30in. Double, Webster and Bennett, 320, 321
Borsig, Aug., Hundredth Anniversary of his Birth, (230)
Bower, Mr. James, 19
Boys! What to do with our, (646)
Bradford Technical College, Apprenticeship Courses, (597)
Brake, Prony, Employed in Hydraulic Laboratory, University of California, (85)
Bricks from Destructor Clinker, Manufacture of, 214, (235)
Bricks, Sand Lime, (521)

Bridges, Railway and other, and Viaducts:
Burma Railway, (498)
Cape Breton and Canada, 444
Ceylon, with Spans of 150ft., (621)
Cleveland Bridge and Engineering Company, Work in Hand, (98), (230), (555), (634)
Cores, (323)
Design in Relation to the Durability of, 269
Ferro-concrete, at Purfleet, 428
General Design and Erection of, Mr. J. Husband on, (582)
Hedjaz Railway, Tenders Invited for Five Large Metal, (35)
Indus, Permanent, over the, Allotment Sanctioned by the Government of India, (11)
Kemey's Chain Bridge to be Replaced by a Steel Suspension, (546)
Knowlmere Manor Concrete, Mr. J. G. Mouchel, 178
Llanfair Caereinion, Erection of a New, (621)
London, Tilbury, and Southend Railway, Bridge Renewing, (64)
Manchester, Water-street, Demolition of, (230)

Bridges, Railway and other, and Viaducts (*continued*):
Manhattan, (345)
Mississippi, Destruction of a, by Wind, by Mr. C. A. P. Turner, 590
Mayence, Railway Bridge near, 468, 469
Neckar, Concrete, 650
Newport, Transporter, 506
New York Avenue, Railway, (498)
New York, 374
North British Railway, Peebles Branch, New Steel Girder, (230)
North-Eastern Railway Company, Across the River Wear, (21); Across the River Tyne, (555)
Paddington Canal, Projected Improvements, (182)
Plate Web Girders, 257; and Letters on, 306, 331, 352, 375, 401
Planen, Stone Viaduct, (323)
Renewing a Railway, Messrs. Head, Wrightson and Co., Limited, 64
Rye Swing, Reconstruction of, Mr. P. C. Tempest, 58, 62, 128, 129
Soissons, Armoured Concrete Skew, M. Hennebique, 342, 343
Stoke Canon, 494
Swale, Railway Bridge over the River, 470
Sydney Harbour, 153, 154, 155
Thusis, over the Rhine at, 511, 512, 513, 519
Tyne, High Level, (634)
United States America, Light Suspension, 226
United States, North Plate River, Wyoming, (646)
Victoria Falls, Zambesi River, (98), (230), (555)
Vauxhall, 436, 437, (571)
Walney Island, (11)
Washington, Across the Potomac, (337)
Wear, (21), 233
Worcestershire, Great Western and Midland Railway Companies, Appeal to the County Council, (97)
Zambesi, Victoria Falls, (98), (230), (634)

British Association for the Advancement of Science:
Presidential Address of Mr. Balfour, 185, 189

CHEMICAL SECTION—
Energy of Water and Steam at High Temperatures, Professor C. Dietterici, 212
Low Temperature Phenomena, New, Sir Jas. Dewar, (248)
Relation between the Crystalline and Amorphous States as Disclosed by Surface Flow of Solids, Mr. G. Beilby, 210

ENGINEERING SECTION—
Programme of Papers, Address of the Hon. C. A. Parsons, 215
Alternating Current Motors, Mr. W. Cramp, (249)
Barrage of the Thames, Proposed, Mr. J. Cassy, 249
Distribution of Magnetic Induction in Multipolar Armatures, Dr. W. M. Thornton, 222
Effects of Receiver Drop in a Compound Engine, Mr. J. W. Hayward, 215
Electrical Conductivity of Certain Aluminium Alloys as Effected by Exposure, Professor E. Wilson, 219
Electric Temperature Alarm, Mr. H. Darwin, (249)
Electricity on the North-Eastern Railway and on Tyneside, Use of, Charles H. Merz and W. MacLellan, (221). 260
Electricity from Water Power, Mr. A. A. Campbell Swinton, 221
Energy Losses in Magnetising Iron, Messrs. Mordey and Hansard, 221
Exhaust Gas Calorimetry, Professor B. Hopkinson on, 211
Flame Temperatures in Internal Combustion Motors, Mr. Dugald Clerk on, 210, (326)
Fracture of Structural Steel under Alternating Stresses, John Oliver Arnold, (*see also* Leaders 255, 277), 227, 248
Heusler Alloys of Manganese, Copper, and Aluminium, Mr. R. A. Hadfield, on the New, 248
Hopkinson Test as applied to Induction Motors, Messrs Sumpner and Weekes, 221
Indicator Tests of a Small Petrol Motor, Prof. H. L. Callender, (218)
Investigations upon the Ten Candle-power Harcourt Pentane Lamp, Mr. Clifford C. Paterson, 222
Iron and its Alloys, Low Temperature Research on the Mechanical Properties of, Mr. Hadfield and Professor Dewar, 218
Large Bulb Electric Incandescent Lamps as Secondary Standards of Light, Professor J. A. Fleming, 222
Lightning Effects, Mr. Killingworth Hedges, (249)
Mersey Tidal Régime Committee, Mr. Shoolbred's Report of, (248)
Motor Cars, Side-slip in, Messrs. H. Darwin and V. C. Barton, 218
Nile, Control of the, Major Sir Hanbury Brown, 248
Specific Heats of Gases at High Temperatures, Professor Dixon on the, 211
Testing Machine, Universal, Mr. J. H. Wicksteed, 236, 237, 248

GEOLOGICAL SECTION—
Professor Aubrey Strahan on Earth Movements, 209
Ripple Marks and Sand Dunes, Professor Geo. Darwin, 212
Sand Ripples, Origin of, Mrs. Ayrton of, 210

MATHEMATICS AND PHYSICS SECTION—
Professor Horace Lamb's Address, 209
Physical Laboratory, National, Dr. Glazebrook's Report on its Work, 248
Reform of the Association, 256

BRITISH Consul, In Defence of the, 103
Goods Made in Germany, 43
Brass for the Admiralty, Mr. Pretyman's Reply to Mr. M. W. Ridley, (111)
Brooks, Mr. J. F., His Research Work at the Leicester Engineering Laboratories, (656)
Brown and Co., John, Atlas Steel and Ironworks, Annual Meeting of Shareholders, (21)
Budget, South African, (216)
Burner, Local Oil Fuel, 330
Burrell, Mr. R. G., (279)

C

CABLEWAY Across River at Victoria Falls, (230)
Calcium Carbide in the Electric Furnace, Manufacture of, (253), (471)
Canada and Dumping, 38

Canals:
Basingstoke, Sale by Auction, (205), (253), (445)
Bengal, 640
Briare to Nantes, Projected, (35)
Commission of the Prussian Diet, Bills Passed by, (498)
Danube-Oder to the Weichsel and to the Middle Elbe, (205)
Dortmund-Ems, Re-instatement of Navigation, (323), (498)
Dortmund-Rhine, (498)
Erie, Electric Towing Systems Suitable for, (345)
Florida, Project for Building a Ship Canal across, (35)
Germany, Projected, (498)
Ivory Coast, Surveys and Estimates for Cutting, (621)
Legislation connected with the Control of, (445)
Manchester Ship, Accounts for Half-year, (134); October Traffic, (521); November Traffic, (639)
Bill, Unopposed, its Object, (157)
Breach in, (35)
Moldau-Danube, (205)
New York State, Contracts for Canal Across, Soon to be Advertised, (345)
Niagara, Another Canal at, 155
Nicaragua, No Prospect of the Construction of, (230)
Niemen and Vistula, (205)
North Sea and Baltic, July, August and October Traffic, (276), (345), (597)
Panama, 348, (370), (651)
Petersburg, Dredgers at Work Deepening the Maritime Canal, and Cost of the Work, (393), (419)
Saulte Ste. Marie Ship, Experiments with Concrete Superstructure for Piers, (498)
Scheme for Placing Canals and Inland Navigations under Control of One Authority, (471)

Welsh Steam, Sir Lees Knowles' Announcement in Regard to the Exports of, to Russia and Japan, (217)
Yorkshire, 227

COAST Erosion, (370) (393), 503
Colliery Cage Accidents, Preventing, 529
Combustion within Air Compressors, Accidents Due to, 10
Commercial Possibilities of Liquid Air, 612
Compass, Mr. Heit's Patent, (205)
Compressed Air-power Transmision, (47)
Compressed Air in Quarry Work, 232
Compressibility, Determining, Messrs. T. W. Richards' and W. N. Stoll's New Method for, (35)
Compression Tests, 235
Compressor, The Air—*see* Air Compressor
Conciliation and the Moulder, 574
Concrete Beams, Flexure of Reinforced, 295
Efflorescence of, (252)
Piers, Hot, (616)
Pile Contract, The Largest Ever Awarded, (370)
and Reinforced Concrete, Papers on, 537
Steel used for Reservoirs in United States, (646)
Stone, Brick, in America, War between, (498)
Superstructure for Canal Piers, (498)
Congress of Mining and Metallurgy at Liège, (276)
Contractor's Legal Obligations, A, 173, 195

Contracts:
20, 74, 98, 120, 133, 170, 190, 218, 238, 252, 281, 310, 334, 345, 370, 380, 406, 432, 484, 503, 556, 582, 634, 656

COOKE, Mr. R. T., 187

Copper:
Aluminium Alloys, Effect of London Atmosphere on the Conductivity of, (299)
Deposits near the Baikal-Ring Railway, (424)
Japanese, Silver and Gold Contained in, (299)
Leader on, 348
New South Wales Production, 1902, 1903, (157)
Pipes, Corrosion of, How to Prevent, (621)
Queensland, in the Great Mount Morgan Gold Mine, (521)
Recalescent Alloys of Antimony and, (571)
Sulphate Treatment for Water Supply, 34, (471)

CORROSION, Curious Case of, 115, 131
Cotton, American, Received at Manchester, (597)
Raising in Cuba, (621)
Industry at Linchingchou, Scheme for Encouraging the, (445)
to Manchester, Importation of Raw, (546)
Mill at Heywood, New, (621)
Paraguayan, (134)
Crane, Coal-handling, United States, (297)
Electric, for South Africa, (646)
50-Ton Electric, Stothert and Pitt, Limited, 161
Excavator, 5-Ton Steam, 116
Navvy, Steam, Ruston Proctor and Co., 295, 296
Cranes, Relative Economy of Hydraulic and Electric Mechanism for Dock, (276)
Crane, 30-Tons Steam Travelling, Messrs. Cowans, Sheldon and Co., Limited, 279
Crookes, Mr. Chas., (331)
Crookes Tubes, Regulation of the Vacuum in, (646)
Croton Dam, The, 209
Cuba, Cotton Raising, and Machinery Trade in, (621)
Customs Duties in Russia, 1903, Revenue from, (182)
Customs Duties of United States Tariff to be Extended to the Panama Canal Zone, (182)
Cycles Imported into Switzerland, (646)
Cycles, Drop in the Prices of, Advice to Purchasers, (205)
Cycles in Use in France, Report concerning Number of, (299)

D

DAIRY Show, 1904, 349
Dalmatia, Development of, 478
Dam, Croton, 209
Dam, A Log, on the Clackamas River, (521)
Davies, Mr. E. J. Mines, 19
Deafness Desirable in a Storekeeper, (373)
Death-rate of the City of London, Fall since 1899, (370)
Defence of the British Consul, In, 103
Derrick Formed of Two Sticks of Oregon Pine, Stone Columns weighing 90 Tons, (61)
Dewar, Sir James, The Gunning Victoria Jubilee Prize Awarded to, (546)
Diamond Mine, The Premier (Transvaal), by Stafford Ransome, 588
Dielectric Solids, V. Crémieu and L. Malclès on Researches on, (546)
Direct Casting from the Blast Furnace, 5

Docks
Aberdeen, Proposed New, (205)
Bordeaux, Floating, (205)
Birkenhead, Improvements Projected, (544)
Cardiff, Pumping Plant for the New South, W. H. Allen, Son, and Co., Limited, 564, 565, (606)
Elderslie Graving, Power Gas Plant for, 150, 151
Grimsby, Projected Improvements, (205)
Hebburn-on-Tyne Graving, Messrs. R. Stephenson and Co.'s, (191). 390
King Edward's, Gibraltar, Water let into, (61)
Kobe Floating, Pumping Plant for, W. H. Allen, Son and Co., 91
Leith Harbour, New Imperial, (471)
Liverpool, 420, 492
Mersey Docks and Harbour, Tonnage Inwards and Outwards for 1902, 1903, (35); Retirement of Mr. B. G. Proctor, (597); Projected Improvement and Development, (157), 420, 428, (544); Deepening, (621)
North-Eastern Railway Company's Dock, Middlesbrough, (98), (111)
Pembroke, Torpedo Depôt Projected at, (218)
Swansea, New, (98), 109
Workington, Purchase of Harbour and Dock by Messrs. Cammell, Laird and Co., (546)

Dockyard Notes:
Admiral Class out of Commission, All the, 15
Admiral Fisher's View that British Squadrons should all be Armoured, 501
Ansaldo Bros.' Yard, Turned into Limited Liability Company, 280
Apollo Class to be Distributed as Drill Ships, 601
Ardent, Fate of the Destroyer, 391
Arrogant, Re-armament of, 96
Austrian River Monitors, Temes and Bodrog, 225
Battleships, King Edward VII., Dry Dock at Gibraltar, 475
Docks Damaged at her Gun Trials, 549
Gun Trials, 475
Her Portsmouth Trips, 349, 391; Submerged Tubes for, 601
Lord Nelson and Lord Mayor, The New, 115
Swiftsure, 115, 652
Triumph, 115, 453, 652
Belleville Motor Cars, 625
Boiler, New Types of, 15
Boiler Removed from the Hermes, Use of, 15
Black Prince, Launch of, 247, 391
Boiler Committee Experiments, Coal Consumption of Babcock and Belleville and Yarrow Boilers, 57, 96
Boxer, Fate of the Destroyer, 391
British *v.* Japanese Embarkation of Soldiers, 247
British Squadrons should all be Armoured, 501
Cæsar, Firing of the, 392; Flagship of the Channel—*ex* Home Fleet, 652
Capped Shot, its Introduction into the Navy lags, 453
Chamois, Raising of the Destroyer Abandoned, 391
Channel Fleet, Notes from the, 652
Coal to Russia and Japan, Supply of, 549
Coaling at Sea, Experiments with the Metcalfe Invention, (471), 475
Coaling at Sea, Experiments with the Moissenet Apparatus, 453; of the Royal Sovereign, 652
Cressy, Speed Attained in her Eight-hours Sea Trial, 370, 391
Cruisers Condemned, 549
Cumberland to join the Cruiser Squadron, 652
Defence, 625
Names of the Four New, 185
of the Mediterranean Fleet and Neglected Defects, 391
of the Minotaur Class to be Built without Rams, 532; to be Named Defence and Shannon, (625)
Dimensions and Design of, 247
Terrible Refitted, has Run Satisfactory Trials and is to Leave for China, 15
Terrible, New Propellers for, 549; Speed from Wei-hai-Wei, 549
Theseus to Pay-off at Devonport, 501
Destroyers Eden and Derwent, Competitive Trials of, 349
Exe Class, The New, 15
of the Mediterranean Fleet and Neglected Defects, 391
Dragon, Fate of the Destroyer, 391
Dutch Torpedo Boats, Trial Results, 453
"Feverish Activity in the Dockyards," no Actual Existence, 453
Formidable, Commission for the Mediterranean, 349
French Battleship Carnot, Bilge Keels Fitted to, 625
Budget for 1905, 625
Cruiser Dupetit Thouars, Record of 1·21 lb. per Indicated Horse-power Secured in Consumption Trials, 625
Edgar Quinet, The New, to have Six Funnels, 280, 375, 652
Leon Gambetta, Trial of, 280
Renan to have Six Funnels, 375, 652
Gambetta, Trials of, 225
Monitor Furieux, 225
Navy List, Ships Removed from, 453
Submarine X Launched, 625
Torpedo Gunboat Condor, Successful Trials Completed, 625
Funnel Hits in Warships, 532
Gasoline, What it is, 96

Dockyard Notes *(continued)*:
German Battleship "P," 115
Naming of the New, 549
N Class to have 8in. of Krupp Armour and no Cylindrical Boilers, 247
"P" Laid Down, 453
Brandenburg Class, Reconstruction of the Weissembourg, Kurfurst, Friedrich Wilhelm, and the Woerth, 115
Cruiser Roon, New System of Armouring, 115
Kaiser, Deutschland, and König Wilhelm Eliminated, 115
Gibraltar, The, Replaces the Iris, 601
Hannibal, her Last Prize Firing, 501
Hogue, Commission for the China Station, 349, 391
Home Fleet, The, 453
Iris, Put Out of Commission as a Training Ship, 601
Italian Battleship Regina Margherita, 115
Italian, Vittorio Emanuele, 652
Japanese Battleship Hei Yen, her Previous History and Final Fate, 375
Battleship Yoshima, 475, (652)
Cruiser Otawa, 652
Cruiser Yayoyama, 652
Kiel, New Torpedo Harbour at, 115
Klado, Captain, 453
Lord Nelson Class, Latest Rumour about the, 225; Tonnage of the, 185
Losses of Destroyers and Torpedo Boats, 247
Medea, Trip to Malta to Test her Yarrow Boilers, 15
Mediterranean Fleet, The Reconstructed, 601
Monmouth, Trip from Gibraltar to Plymouth, 96
Motor Cars, Naval Officers to be Allowed 6d. a Mile, Using their Own, 625
Old Ships, Use of, 15
Pathfinder, Launch of the Scout, 96
Petrol Motors, War Material Firms Specialising in, 625
Portugal "Going to" Increase her Navy, 532
Powerful, New Propellers for the, 549
Prince of Wales, Eighteen Months' Cruise, 475
Propellers for the Powerful and Terrible, New, 549
Names Suggested for the Second Battleship of the Lord Nelson Class, 15
Naval Battles in the Far East, The, 185
Manœuvres, The, 15, 57, 96
Signal Station at Portsmouth, New, 96
New Zealand, Record-making at Portsmouth with the, 332
Northampton, The, 575
Reorganisation Schemes for our Cruisers, 549
Royal Sovereign, Coaling of the, 652
Russia, Destroyers Ordered by, 532
Russian Fleet, Our Crews' Impression of, 501
Fleet at Port Arthur, Mystery of the Sunken, 625
Novik, Fate of the, 332
Rurik, Sinking of the, 247
Ships, Captain Klado Demands a "Third Squadron," 601
Ships use Zinc to Patch Holes, 501
St. George Replaces the Northampton as Training Ship, 575
St. Petersburg, New Model Yard to be Built at, 501
Ships that are to go to the Scrap Heap or Harbour Service, 532
Stern Submerged Tubes for the King Edward VII., and her Sisters, 601
Stoking Indicators and Mechanical Arrangements: The Drake has None, 453
Submarine A1 to be Re-fitted, 96
Submarines, Cross-Channel Passage from Dover Prevented by Weather, 475
Lying at Minneapolis believed to be for Japan, 453
for the United States, Sum to be Spent on, 453
Wolseley Engines to be Fitted to the New, 625
Swedish Battleship Aground, 247
Swedish Submarine Hayem, 115
Torpedo, Triumph of the, 15
Torpedoes, Booming and Underestimation of, 247
Training Squadron, The New, 601
Turbines, Competitive Tests between the Curtis and Parsons, 453
United States Battleship New Hampshire, The New, 115
Cruiser Colorado, 115, 575
Cruisers, North Carolina and Michigan, The New, 115
Cruiser Pennsylvania, Speed Trials, 625
Col. Cuniberti's Ideal Battleship, The Building of, Seriously Considered, 185
Scouts, Birmingham, Chester, and Salem, The New, 115
Warships to be Sold Off Next Spring, 601
Yamada, Capt., 247

DORMAN, Long and Co., Limited, Report for 1904, (507)
Dover Colliery, 175, 199
Drainage, Gosport and Alverstoke Main, 156
Drainage Scheme for Spezia, Premium to the Competitor Presenting the Best, (299)
Drawings, Rights of Property in, 601
Dredger for Natal Harbour Works, Official Trials of, (157)
Drills, Twist, (571)
Drown, Dr. T. M., 549
Dry Air in the Blast Furnace, 532, 629; M. Herin le Chatelier on the Use of, (621)
Durand, Sir Mortimer, on the St. Louis Exhibition, 625
Düsseldorf, Congress of German Architects and Engineers, (205)
Dust Collector, New, 117
Dust-laying Experiments in Kensington, (521)
Dust League, Anti-, in Paris, (35)

Engineering:
Apprentices on the Wear, The Allan Scholarship for, (21)
Congress, St. Louis, Papers Read at, (157), 487, 517, 537, 561
Education, Professor R. Fletcher, 562
Electric, Chair of, Established at Birmingham University, (603)
Engineering Section, British Association, Papers Read in, 210, 221, 487
Enterprises in Canada, 70
Exhibits, Review of the, St. Louis Exhibition, 316, 336
Faculty of, in the University of Liverpool, 129
Feat, Smart, (534)
Fortifications, Major G. W. Gosthals, 562
Guy's Hospital, 362, 412, 465
Highway Construction, M. Forestier, 561
Lighthouse Engineering, Mr. T. Matthews, M. Ribière and Lieut.-Colonel Lockwood on, 487
Marine, Mr. W. F. Durand, 562

Engineering, Engineers, Engines, Motors:

Engineering *(continued)*:
Mining, M. Gruner, 562
Naval Architecture, Sir Wm. H. White, 561
Progress, 475
Structures, Paints Suited for, 41
Visitors to Germany, British, 137
Works Policy and Modern Competition, Mr. Bardill on, (483)

Engineers:
"Alien," 187
Cadets, Naval, 120
Certificates, Canadian Association of Steam Engineers' Petition, (498)
Civil, and our Export Trade, R. L., 110; A Manufacturer, 131; Manufacturing Engineers, 186
Education of the Mining, 90, 94
Electric, The Corps of Volunteer, 6
of the First-class Battleship Prince of Wales, Messrs. Scott and Co., 12, 15
and Iron, 549
Kerr, Mr. Walter C., "The Point of View," Address to Young Engineers to be, 653
Literature in the Non-technical Press, Remarkable, (571)
Plant, Brighton Municipal School of Science and Technology, (597)
Salaries in New York City, (571)
School, Crystal Palace, Papers Read during the Session, (625)
Specifications, 453, 637
United States Navy, 647
Visit of Belgian, (281)

Engines:
Acetylene Gas, 503, 551
Automobile Steam Fire, Herr M. Reichel, 163
Beam Pumping, 209
Building in the North, Sir C. Furness on, 444
Coal-consuming to Oil, Saving in Changing a Plant from, (621)
Compound Petrol, American Firm, (111)
Compound Winding, Robey and Co., 180, 181
Design of High-speed Enclosed Steam, 384, (427), 435, 490, 559, 611
Diesel, Fuel Consumption Test of a, (122)
Economy of Oil-consuming, (621)
Effects of Receiver Drop in a Compound, Mr. J. W. Hayward on the, 215
Efficiency of Heat, 348
Failures, Mr. Michael Longridge's Report on, 207
Fire, The Wolseley Motor Chemical, (296)
Future of the Steam, Professor G. F. Charnock on, 401
Gas, Age of, and Inventor, (370)
Electric Driving v., 3
Exhaust Gas Calorimeter, Professor Hopkinson's, 211
in Iron and Steel Works, Mr. J. H. Hamilton on, 554
Natural, Tests on a Large Number of Similar Internal Combustion, (85)
The Perfect Starter for, 239
Power of, Mr. W. T. Flint, 65
Water Required to Keep the Cylinders Cool, (157)
H.M.S. Black Prince's (*Supplement December 30th, 1904*), 643
High-speed, John Hind, jun., on (reference to p. 384), 427
Enclosed Steam, 384, (427)
Internal Combustion, 134, 148, 173, 210, 235
Ignition in Internal Combustion, Sir Oliver Lodge on, 567
Indicator, The Starr Brass, 479
Marine, Models at South Kensington, 491
Marine, Problem of Screw Propulsion, 43
Modern High-speed Steam, Messrs. W. H. Allen, Son and Co., Limited, 54, 55, 96
Motors, Flame Temperatures in Internal Combustion, Mr. Dugald Clerk on, 210
of the New Passenger Steamers for the Thames, 620
Oil, 47 Brake Horse-power, Crossley Bros., Limited, 246
Portable, with Reversing Gear, Campbell Gas Engine Company, 594
at the Royal Agricultural Society's Show, 16, 17
Pistons for High-speed, 384, (427)
Potential Efficiency of Prime Movers, C. V. Kerr, 68
Power of Steam, 70
Prime Movers, Potential Efficiency of, Mr. C. V. Kerr, 3, 13
Pumping, W. H. Allen, Son and Co., 91, 564, 565
American, 448
Gainsborough Waterworks, Mr. Percy Griffith, 104, 105
Hathorn, Davey and Co. (Letter), 532
Hinksford, Fawcett, Preston and Co., Limited (*Supplement, July 22nd, 1904*), 28, 36, 40, 96
Large, Chicago, 72
Six-cylinder Quadruple-expansion, 1500 Horse-power, Soc. Anonyme des Etablissements Delaunay, 366, 367
Small Rotary Steam, Weighing 4½ lb., (11)
Steam, Design of High-speed Enclosed, 384, (427), 435, 490
C. V. Kerr on the Potential Efficiency of Prime Movers, 68
at the St. Louis Exhibition, 195, 222, 249, 294, 337, 366, 409, 463, 515
Stop Valves and Ganges, Mr. A. H. Hopkinson on, (556)
Traction on Common Roads, 448
Tandem Compound, Ruston, Proctor and Co., Limited (*Supplement, September 2nd, 1904*), 225
Throttle Valves, 559, 560
Traction, at the Royal Agricultural Society's Show, 16, 17
Triple-expansion, 1400-Kilowatt, J. and H. McLaren, 612, 613
Triple-expansion, 7500 Indicated Horse-power, H.M.S. Prince of Wales, Messrs. Scott and Co. (*Supplement, July 1st, 1904*)
Vacuum, Messrs. Hardy and Padmore, 304
Valve Gear, Telescopic Steam, La Société Bollinckx, 411, 418
Willans' Constant Thrust, Trials of, 234

Exhibitions:
Automobile, of the Society of Motor Manufacturers and Traders, Olympia, (85)
Barcelona, Mineral Products and Hydraulic Machinery, (182)
Bradford, Loom, 31, 32; Machine Tools, 32
Brewers', (370), 400
Brussels International, October, 1904, (253)
Capetown International, (85)
Colliery at Islington, 39
Dairy, 349
Electric, Shoreditch, 399
Gas International, at Earl's Court, (471), 530
Ghent International, Small Motors and Machine Tools, (11)
Liège International, Machinery Section, (229)
Paris Hygiene, (182)
Paris, A New, (571)
Shoreditch Electrical, 106
Shoe and Leather, Agricultural Hall, 451
Stanley Show, The, 520

Exhibition, St. Louis, International:
No. V., 10; VI., 30; VII., 56; VIII., 80; IX., 103; X., 125; XI., 147; XII., 174; XIII., 195; XIV., 222; XV., 249; 274; XVI., 294; XVII., 316; XVIII., 337; XIX., 366; XX., 386; XXI., 409; XXII., 462; XXIII., 515; XXIV., 589; XXV., 639
Awards to British Exhibitors, 481, 551
Ceylon Exhibits, Awards to, (646)
Coal-testing Plant, (445)
Durand, Sir Mortimer, on the Exhibition, 625
Electrical Congress, International, 359, 383
Electric Exhibits at, 606
Engineering Congress, International, (157), 467, 487, 517, 537
Engineering Exhibits, Review of the, 316, 386
Engines, Steam, 195, 222, 249, 294, 337, 366, 409, 463, 515
Farnley Iron Company, Medal for the "Best Yorkshire Iron," (445)
"Lighthouse Engineering," Papers on, 487
Locomotive Mallet Duplex Compound (*Supplement, September 16th*, 1904), 274
Locomotive Testing Plant (*Supplement, August 19th*, 1904), 178, (646)
Medals Awarded, (419), (445), (646)
Power Plant, 80, 103, 125, 147, 174
Sirocco Fans, Medal Awarded to Messrs. Davidson and Co. for, (419)
Steam Turbines at, 589, 639
Steel Testing, High-speed, (323)
Surveying and Mining Instruments, Meda's Awarded to Messrs. John Davis and Sons, Limited, for their, (419)

Explosives:
Black and Brown Powder, Cordite Replaced by Smokeless, (597)
Cordite Factory on the Nilgiris, (323)
Projectiles, Bethlehem Steel Company's, (597)
Projectiles, Heclon A.P., 376
Smokeless Powder, (597)
Smokeless Powder, "Marksman Smokeless," (182)
Torpedoes in Action, Letter on, 306
Brennan, Total Expenditure by the Admiralty on, (11)
The Whitehead, Its Present Range Renders it Ineffective in Future Naval Actions, (299)
Ordered at Fiume by Russia, (370)

F

FACTORY Department, Report of the Work of, (85)
Feed-water Heating, "Live Steam," 184
Ferry Works, Queensferry, 7
Fielding and Platt, Limited, Hydraulic Machinery, 8, 9
File-cutting Machine, (345)
Files and Rasps for the Royal Norwegian Naval Authorities, (521)
Filtration System, The Largest in the World, (297)
Finland, Exploitation of the Forests of Enare Lapmack, (323)
Fire Alarm, A Sensitive, (621)
Fire Apparatus, Private, in Chicago, (370)
Firebricks, Refractory, (571)
Fire Engines, Automobile, Herr Reichel, 163
Engine, Motor Chemical, 296
Loss of the United States and Canada for November, (621)
Fishing along the Chinese Coast with Steam Trawlers, Establishment of a Company, (230)
Flag Press for Destructor Clinker, Messrs. C. and A. Musker, 41
Flax in Belgium, Cultivation of, (276)
Fog, Consumption of Gas and Electric Light during the, (646)
Fortifications, Major G. W. Goethals on, 562
Foundry Practice, French, (532)
Fownes, Mr. Henry, (201)
Freshwater Bay, Condition of Beach at, (253), (597)
Fuel Economy, 229
Fuels, Comparison between the Calorific Values of Different, Used in Internal Combustion Engines, (621)
Furnace, Blast, The First Erected in South Africa, (61)
Furnaces, Blast, Nyköping, Sweden, Projected Erection, (85)
in Blast, Quarter Ended September 30th, 1904, (345)
in the United Kingdom, June 30th, 1904, (35)
Dry Air in the Blast, 499, 532
Electric Steel, 46
The Garrett Reheating, (632)
Lead, Converted into Matting, at San Luis Potosi, (521)
New Electric, Mr. A. Nodon's Patent, (111)
Plant, American, 91
Portable Rivet, Mr. R. Hudson, 453

G

GARBAGE Disposal, American, 190
Garrett Reheating Furnace, Major Trinham on the, (632)
Garside, Mr. A. A., (423)

Gas:
Acetylene, Lighting the Traffic Yard at Lahore, (134)
Acetylene Phare on the Eiffel Tower, (11)
Calorimetry, Exhaust, Professor B. Hopkinson on, 211
Coke Oven, Utilisation of, 234
Gas, Oil and Steam for Power, Mr. M. Longridge on, 277, 403
Generated by the Ovens in the Semet-Solvay Plant of the Milwaukee Gas and Coke Company, (35)
Home-office's Circular on the Dangers associated with Water Gas and other like Gases used for Industrial Purposes, (345)
Metropolitan Companies, Gas Supplied by, Report presented by the Committee appointed by the Board of Trade, (11)
Natural, at Aylesbury, (419)
Gas Wells in the United States, The Deepest, and the Highest Pressure ever shown by, (299)
Manufacturers and Domestic Consumers in America supplied with, (571)
Production in the United States, its Value, (521)
Plant, Power, for Elderslie Graving Dock, 150, 151
Producer, Suction, Messrs. J. and O. G. Pierson, 450
Pump, Automatic, (205)
South Metropolitan Company further Reduce Price of, (134)
Suction Gas Producer, Messrs. J. and O. G. Pierson, 450
Sulphur in Illuminating, 161
Supply of the Metropolis, Committee of the Board of Trade appointed to inquire into the, (11)
Tamworth, Consumption and Reduced Price of, (299)
Turbine, Scientific Investigation into the Possibilities of the, Mr. Neilson on, 414, 422, 429
Works, Extension, Birmingham, (216)

GASEOUS Mixtures, Explosion of, 37
General Secretary (Mr. R. Bell) of the Amalgamated Society of Railway Servants, his Action with regard to Protection of Electrified Railways in Lancashire, 170
German Coal Mines, Nationalisation of, 184
Gilmour, Mr. David, on South African Mining and the Inventor, 322, 352
Glasgow University, Lord Kelvin and other Scientists, 554
Glommen Hydraulic Power Works, The, 197
Glover and Co., Limited, W. T., Contract acquired by, for Johannesburg Municipality, (217)
Gold-dredging Machinery, 201
Melting Point of, Jaquerod and Perrot, (323)
Mining Industry in Lapland Unsatisfactory and Brought to a Close, (370), (498)
Output, Transvaal, (216)
Gosport and Alverstoke Main Drainage, 156
Graham, Morton and Co., Offer to Young Men who have obtained the B.Sc. in Engineering at the Armstrong College of Science, (507)
Gramme, Monument to, (11)
Greece, Roadmaking in, Survey of Thessaly in View of Hydraulic Works, (546)
Greece, Survey of, (498)
Greenwich Footway Tunnel, Cost of, (621)
Gresham College, Lectures on the Infinitesimal Calculus, (423)
Grinder, Tool, 504
Guatemala, Timber and Rubber Industry in, (134)
Guhrolit, Artificial Building Stone, (345)
Guy's Hospital, Engineering at, 362, 412, 465

H

HAIRPIN Manufacture at Painswick, (299)
Hammersmith Ironworks, Annual Dinner of Apprentices, (597)
Hanley Sewage, (61)

Harbours and Waterways:
Algiers Harbour in the Bay of Agha, (123)
Harbour Improvements, (345)
Port as a Coaling Station, Importance of, (345)
Barcelona Harbour Water Area, &c., (157)
Belgian Waterways under State Control, (182)
Bengal, Navigable Waterways, 640
Brindisi Harbour, Dredging in, (230)
Bristol Channel, Question of a Harbour of Refuge in, (157)
Cherepovetz, River Harbour at, (621)
Chicago, S., New Breakwater, (182)
Chinwangtao, The New Port, (439)
Civita Vecchia Harbour Works, (134)
Clackamas River, Oregon, Log Cofferdam on the, (521)
Colombo, Harbour Works, (323)
Cornish Coast, Harbour of Refuge Needed between St. Ives and Padstow, (498)
Cronstadt, Middle Harbour Closed, (182)
Dover, New Ocean Pier at, (35); Admiralty Harbour at, (571)
Dover, Torpedo Boat Harbour, (205)
Dredging of Ocean Bars, Major J. C. Stanford, 467
Flushing Harbour, Scheveningen, Mr. Wortman, 467
Galveston, Texas, Sea Wall at, (253)
Gizon, Harbour Works, (182)
Harbours, Mr. W. Matthews on, 467
on Lakes Erie and Ontario, Major Kingman on, 467
and Works on the Sea Coast, Papers Read at the International Engineering Congress, St. Louis Exhibition, 467
Leith Harbour, New Imperial Dock at, (471), 550
Lerwick Harbour to be Enlarged, (182)
Liverpool Chamber of Commerce Urges the Acquisition by the State of all Inland Waterways of the United Kingdom, (157)
Loire, Raking Dredge on the, 530
London, Port of, (393), 415
Melung Harbour Works, Formosa, (157)

Harbours and Waterways (*continued*):
Mersey, Annual Report on the Navigation of, (85)
Molesey, New Lock at, (571), (546)
Natal Harbour Development and the Resignation of Sir C. Hartley and Sir J. W. Barry, (498)
Naval Ports, Defences of our Great, 601
New Orleans, Channel to the Sea through the South-West Pass of the Mississippi, (35)
New York Harbour Improvements, Draught of Moving Steamers, 209
Niagara River, Proposed Improvement of the, 201
Niger, Improvement of the Navigation, (129)
Odessa, New Harbour at, (323)
Osaka Harbour Opened, (253), (471)
Peterhead Harbour, (401)
Ribble Estuary, Extension of the Training Walls, Mr. Barron's Report to the Committee, (111); Bill for Next Session, (445)
Rouen Harbour Improvement, (323)
Salen, Mull, New Pier at, (571)
Scarborough Harbour Extension, Cost of, (230)
Scarborough Sea Wall, (345)
Schutenlake Channel, Providing Dantzig with a Shorter Water Approach from the Baltic Sea, (157)
Spezia Harbour, Improvement of, (157)
Sydney Harbour Bridge, 153, 154, 155; Dam, (230)
Thames Conservancy Board, Question of Petrol Launches, (419); Water Abstracted from the River, (419); New Lock at Molesey, (546), (571)
Construction of Dam, (646)
Proposed Barrage of the, Mr. J. Casey on, 249
Volga Delta, Sanded up and Unfit for Navigation, (370)
Workington Harbour, Purchased by Messrs. Cammell, Laird and Co., (546)

HARRISON, Mr. Wm. Wheatcroft, 106
Hawthorn, Leslie and Co., Limited, The Admiralty and, (314)
Heat Diagram, Mr. G. J. Wells, (432)
Efficiencies, C. V. Kerr on, 68
Insulating Media, Relative Efficiency of, 43
Heating Surface, On the Value of, (85)
Heaton, Mr. Geo., 263
"Heclon" Gyratory Rock and Ore Breaker, The, 424
Hele-Shaw, Prof., Post Accepted by, (597)
Helical Spur Wheels for Rolling Mill Work, P. R. Jackson and Co., Limited, 454
Helium, Boiling Point of, Sir Jas. Dewar on the, (621)
Helium, its use as a Thermometric Substance, (546)
Hemp-stripping Machine, Mr. R. E. Lindsay, (597)
High-speed Cutting, 624
Hill, Mr. and Mrs. Isaac, (331)
Hinksford, Pumping Engines at (*Supplement, July 22nd*, 1904), 23, 36, 40, 96
Hospitals at Leeds, New, (368), 406
Hot Brasses, 579, 629
Hot Springs and the Simplon Tunnel, 179, 244, 341, 385, 415, 568
Humid Cotton-weaving Sheds, The Factory and Workshops Act and, (85)
Hunt, Mr. Edmund, 593
Hutton and Sons, Limited, Messrs. William, Memorial Centre Ornament for Officers' Mess Table, (431)
Hydraulic Machinery, Niclausse Boiler Works, Ferry Works, Queensferry, 8, 9

I

ICE Plant, Jerusalem, (253)
Ice Shipments from Norway, (182)
Impact Tests, Mr. Seaton and Mr. Jude on, 517, 523, 528
India-rubber Gloves, Use of, 619
India, Standard Times for, (247), (553)
Indian Mineral Production, 1903, 380
Indicator, Milner's Speed, 551
Induced Draught, 532, 629
Industrial Progress of Japan, 201

Institute, City and Guilds of London:
Coker, Mr. E. G., his Appointment, (452)

Institute of Civil Engineers:
Yorkshire Section of, Visit to Middlesbrough, (35)

Institute of Electrical Engineers, American:
Invitation to the Institution of Electrical Engineers, and Arrangements for the Congress at St. Louis, (71)

Institute of Engineers, The Midland:
Presidential Address, Mr. T. W. H. Mitchell, 529

Institute of Engineers and Shipbuilders, N.E. Coast:
Dates of Meetings, (406)

Institute, The Franklin:
Emery Wheels, Experimental Work with Solid, Mr. Dunkin Paret, 202

Institute, Iron and Steel:
Gold Medal Presented to Mr. Carnegie, 452
Iron, Application of Dry Air Blast in the Manufacture of, Mr. Jas. Galey, 428, (499), 505
Meeting in the United States, 19, 354, 428, 452, 514, 642; Programme, 235, 307; Sheffield Manufacturers Intending to Attend, 309
New York Power Stations, 495
Steel, Development and Use of High-speed, Mr. Gledhill, 464, 482
Visit to the American Steel and Wire Company's Works, Cleveland, 514
Visit of Belgian Engineers, 227
Visit to the Maryland Steel Company's Works, Sparrow's Point, 642

Institute of Marine Engineers:
Opening of Session, Programme for October, (349)

Institute of Mining and Mechanical Engineers, North of England:
Annual General Meeting of the Members, Programme of Proceedings, 137
Excursion Meeting, (276)

Institute, Northampton:
Lord Rosy to Present the Prizes, (498)

Institute, The Sanitary:
Conference on School Hygiene, Meetings Arranged, (438)
Inaugural Address of the President, Lord Blythswood, 130
Infectious Fever Hospitals, Discussion on, (368)
Manchester Sewage Disposal, Cost of Filtration, Dr. Fowler, 130, (213)
Preliminary Programme of the Twenty-second Congress, 48
Professor Robinson's Address to the Engineering and Architectural Section, (137)
Title of "Royal" Conferred by the King on the Institute, (419)

Institute of Sanitary Engineers:
Meetings and Lectures Arranged, (115), (351), (478)
Visit to Inspect the Liernur System of Sewage at Stanstead, (380); Naval Hospital, Chatham, (453)
Visit to Tunbridge Wells, (46)

Institute, Staffordshire Iron and Steel:
Presidential Address, Mr. H. B. Toy, (391)
Gas Engines in Iron and Steel Works, Mr. J. H. Hamilton, 554

Institution of Civil Engineers:
Coast Erosion, Papers on, by A. E. Caray and E. R. Matthews, (503)
Education of the Young Engineer, Committee to Consider the Question, (230)
Electrical Energy, Distribution of, J. F. C. Snell, 553
Medals and Awards, (250)
Meetings to be Resumed, (391)
Miller Prize Awarded to Mr. J. E. Lister, (253)
Pass List, October Examination, 553
Recent Visit to United States and Canada, Sir W. H. White on, (597)

NEWCASTLE-UPON-TYNE ASSOCIATION OF STUDENTS OF—
Presidential Address, Sir G. L. Molesworth, Chiefly Devoted to India, 440
Visit to a Man-of-War Offered by Lord C. Beresford, (303)

YORKSHIRE STUDENTS' ASSOCIATION—
Bridges, General Design and Erection of, Mr. J. Husband, (582)
Presidential Address, Mr. Ewing Matheson, (530)

Institution of Civil Engineers of Ireland:
Experimental Excursion to Rosslare and Fishguard to be Organised for Next Year, (498)

Institution of Electrical Engineers:
Annual Conversazione, 15
Dinner, (578)
Invitation from the American Institute of Electrical Engineers and Arrangements for Congress at St. Louis, (71)
Delegates Appointed to Attend the Electrical Congress at the St. Louis Exhibition, (85), (205)

GLASGOW LOCAL SECTION OF—
Opening Meeting, (349)
Third Annual Dinner, (399), (453)

LEEDS LOCAL SECTION—
Visits Arranged, (501)

MANCHESTER STUDENTS' SECTION—
Meetings and Visits for 1904-5, (494)

Institution of Engineers, The Cleveland:
Presidential Address of Mr. Worth, 506
Pyrometers for Industrial Purposes, Mr. R. S. Whipple, 625

Institution of Engineers, The Junior:
Annual General Meeting, (458)
Appointment of Mr. P. Watts, (646)
Summer Meeting at Düsseldorf, Programme, 166, 284
Torpedo Boat Construction, Mr. H. E. Yarrow, (582)
Visit to Berlin, (230)
to the Central Station of the South Staffordshire Mond Gas, Power, and Heating Company, 549
to the Chelsea Generating Station, Bryant and May's Match Manufactory, 57
to the International Gas Exhibition, Earl's Court, (643)
to the Granolithic Stone Company, Millwall Docks, 418
to the London Coliseum, (632)
to the National Harbour Works of Dover, 106
to the National Physical Laboratory, (401)

Institution of Engineers and Shipbuilders, Scotland:
First Meeting, Forty-eighth Session, Paper on the Smoke Problem, Mr. F. J. Rowan, (453)

Institute of Marine Engineers:
Protection of Metallic Surfaces, Mr. H. Brandon, 391

Institution of Mechanical Engineers:
Cast Iron Composition, Strength, and Specifications, Mr. W. J. Keep, 66
Conversazione, General Meeting, 107
Design and Test of a Modern Steam Power Plant, Mr. E. G. Hiller, 107, 118, 119, (135), (137); Leader Referring to, 113

Institution of Mechanical Engineers (*continued*):
Heat Treatment Experiments with Chrome-Vanadium Steel, Capt. H. R. Sankey and Mr. J. K. Smith, 615
Impact Tests on the Wrought Steels of Commerce, Mr. A. E. Seaton and Mr. A. Jude, 517, (523), 528
Lathe Tool Dynamometer, Experiments with, Mr. J. T. Nicholson, 66
Middlesbrough Dock Electric and Hydraulic Power Plant, Mr. R. V. L. Raven, 29
Opening of Autumn Session, Storey's-gate, 414
Power of Gas Engines, Abstract of Mr. W. T. Flint's Paper on Commercial Gas Engine Test and Proposed Standard of Comparison, 65
Power Plant for Tall Office Buildings, Mr. J. H. Wells and Mr. R. P. Bolton, 29
President's (Mr. Wicksteed) Account of the Experiences of the Institution in America, 107
Prime Movers, Potential Efficiency of, Mr. C. V. Kerr, 3, 13
Strains and Annealing, Mr. W. Campbell, 65, 66
Superheated Steam and Reheaters, Mr. Lionel S. Marks, 29
"Tests of Locomotives," Papers on, by Mr. E. A. Hitchcock, Prof. W. F. M. Goss, and Mr. G. J. Churchward, 66
Turbine, The Curtis Steam, W. L. R. Emmett, 3
The De Laval Steam, Messrs. E. S. Lea and E. Meden, 3
Different Applications of Steam, Prof. A. Rateau, 3
Scientific Investigation into the Possibilities of the Gas, Mr. Nielson, 414, 422, 429, (503)
Work, some Theoretical and Practical Considerations in Steam, Mr. Francis Hodgkinson, 3

Institution of Mechanical Engineers, The American:
Water-tube Boilers, Priming and Baffle Plates, Mr. A. Bement, 547

Institution of Mining Engineers:
Fifteenth Annual Meeting, Papers to be Read, (252)

Institution of Mining and Metallurgy:
Equipment of Laboratories for Advanced Teaching and Research in the Mineral Industries, 94
Tenth Ordinary Meeting of the Thirteenth Session, Papers to be Discussed, 66

Institution, National Lifeboat:
Number of Lifeboats, Rewards Granted during Past Year, (108)

Institution of Sanitary Engineers:
Meetings Announced, (22)

INVENTORS and Patents, Decision of the United States Commissioner of Patents, (646)

Iron:
Alloys of, 248
Beds Owned by the United States Steel Corporation, (134)
"Best Yorkshire," Medal Awarded at the St. Louis Exhibition, to the Farnley Iron Company, (445)
Carlton, (191)
Cast Iron Composition, Strength, and Specifications, Mr. W. J. Keep on, 66
Dry Air Blast to the Manufacture of Iron, Application of, 428, (499), 505
Economic Value of Cast, Mr. W. H. Pretty on, (605), (646)
Effect of Alloying, with Another Element, (597)
Founders, Professor Wüst's Scheme for the Education of, (61)
German Exports, August, (370)
Hardening, New Process for, (85)
Maximum of Phosphorus Secured in Combination with, (571)
Ore, Brazil, Export Possible at a Profit, (419)
in California, Large Deposits of, (11)
Chromic, Cuba, (157)
Deposits in Russia, Enormous, (205)
Export Trade, Swedish Steamship Owners' Memorial to the Government Relative to the, (205)
Mining Industry, Sweden, (276)
Production, United States, (276)
and the United Kingdom, 185
Pig, Estimated Make of, for Half-year, (35)
Production of, during Last Three Years, in the Leading Countries of the World, (21)
Production, United States, Nine Months, (445)
Pipes with Asphaltum, Protection of, (230)
Prices and Quantities of Manufactured, Official Returns for July-August, (333)
and Steel Exports during October from North of England, Customs Returns, (498)
Output in Chicago, (61)
Output in United States, 231
Trades, The Tariff Commission and the (*see* pages 289, 293, Vol. XCVIII.), (85)
in the United States during 1903, Statistics of the Production of, (593)
Works, Monterey, Mexico, (419)
Thermal and Electric Conductivities of, when Alloyed with another Element, (597)
Tons of Steel Produced for Every 100 Tons of Pig, (323)
Trade, Manufactured, September and October, Returns, (555)
Warrants, 90
Wire Rheostat, Water-cooled, Used by Mr. Weber, Nancy Central Station, (111)

IRELAND, Public Works in, 544
Irrigation Scheme for Thessaly, (546)
Sir Hanbury Brown on, 537
Nile, 243, 267, 289, 313, 337, 352, 401
Projects in Egypt and the Soudan, 152
of the Island of Coringa, (182)
Ivory Coast, Gold Mines, Canal, Railway, (621)

J

JAFFA, Opening for Agricultural Implements and Machinery, (134)
Jaffa, Petroleum Engines for Pumping Water from Wells, (134)
James, Mr. Stanley, (201)
Japan, Arable Land in, (253)
Japan, Industrial Progress of, 201
Japanese Manipulation of Tools in the Handicrafts, (276)
Jameson, Mr. John, (64)
Johannesburg, Sewerage and Electric Lighting, (217)
Johannesburg, Valuation of the Town, (430)

K

KAY, John, Commemoration of his Bicentenary, (85)
Kelham Rolling Mills Company, Limited, Annual Meeting, (21)
Kelvin, Lord, His Installation as Chancellor of Glasgow University, 554
Kerosene for Inland Consumption in Russia, Question of the Tax on, (111)
Kerr, C. V., on the Potential Efficiency of Prime Movers, 68
Kerr, Mr. Walter C., The Point of View, 653
Kirknouse, Mr., 253
Kitson, Sir James, Jubilee Celebration, (345)
Klean Dust Collector, The, 117

L

Labour Questions, Strikes, and Disputes: Wages
American Federation of Labour, Exclusion of Japanese from America, (521)
Board of Trade's Annual Report for 1903, (11), (35)
Board of Trade on the State of the Labour Market in September, 393
British Motor Car Industry, Hands Employed in, (597)
Canadian Manufacturers' Association, Report showing Scarcity of Hands Issued by, (182)
Eight Hours Day, 475
Eight Hours Day in the United States, 45
Female Hands Employed by the Chicago Steel Manufacturing Company, (471)
Imperial Shipbuilding Yard at Kiel, Wholesale Dismissal of Workmen from, (202)
Krupp Works, Number of Persons Employed, 273
Labour and Prosperity, 185
Labour and Trade, 395
Miners' Wages in Yorkshire, 15
Moulder, Conciliation and the, 574
Moulders' Unions, The Premium System and the, 599
National Founders' Association, Principal Clauses of the Announcement Made at the Meeting, 579
Patent Rights of Employers and Workmen, 315
Premium System, The, (263), 301, (309)
Premium System and the Foundry, 599
South Wales and Monmouthshire Iron and Steel Workers, Mechanics, &c., Meeting at Abergavenny, Wages to be Reduced, (35)
Status of the Mechanic in the United States, 366
Steel Trade Struggle, 373
Strike, Boiler Shops, Palmer's Shipbuilding and Iron Company, (264), (333), (356)
Messrs. R. Craggs and Sons' Shipyard, (21)
Harland and Wolff's Shipbuilding Yard, (345)
William Jessop and Sons, Limited, (405)
at Marseilles, Maritime, 325, (370)
Monmouthshire Colliers, (205)
South Staffordshire and North Worcestershire Rivet and Bolt Trade, ended, (182)
Syndicate, a World-wide Steel, 600
Wages, Coal Miners', 208
Dispute in the Shipbuilding Trade on North-East Coast, (534), (546), (555), (584)
London, 371
United States in 1903, (370)
Reduction, Scottish Miners', (85)
Reduction, South Wales and Monmouthshire, (35)
of the South Wales Colliers, No Alteration in, (134)

LABOUR and Prosperity, 185
Lampblack as Fuel, Use of, (323)
Land in London, Plots of, Attempt to Let by Auction, (85)
Lathe, 8in. Capstan, Tangye Tool and Electric Company, Limited, 630
Lathes. *See also Supplement, November 4th*, 1904

Launches and Trial Trips:
20, 46, 74, 94, 138, 193, 219, 241, 265, 284, 307, 332, 357, 380, 453, 504, 525, 554, 632

LAUNDRY at Guy's Hospital, 465
Laws, Mr. W. G., (650)
Lead Output, 1903, Spain's, (253)

Leaders:
American Pumping Engines, 448
Ball Bearings, 14
Belgian Steel Works, Position of, 548
Boiler Explosion in Paris, 38, 63
Boiler Explosion, A Remarkable, 301
Boilers for the Navy, 159
British Association Reform, 256
British Plate Convention, A, 422
British Railways, Working of, 232
Canada and Dumping, 38
Conciliation and the Moulder, 574
Consulting Engineers and our Export Trade, 278
Derailments, 371
Dry Air in the Blast Furnace, 499, (532)
Education of the Mining Engineer, 90
Efficiency of Heat Engines, 348
Electric Main Line Railways, 600

Leaders (*continued*):
Electric Railways, High-speed, 136
Electric Tramways in London, 501
Electricity in Factories, Use of, 500
Engine Failures, 207
Engineers in the United States Navy, 647
Explosion of Gaseous Mixtures, 37
Explosion in Paris, Boiler, 38, 63
Farmers, Railways and Motor Vans, 372
French Marine, The, 524
French Naval Reform, 393
Gas Turbines, 422
German Coal Mines, Nationalisation of, 124
German Steel Syndicate Troubles, 114
H.M.S. Terrible, 524
Impact Tests, (517), 523
Iron and Steel in the United States, 231
Japan's Sea Power, 302
Labour and Trade, 395
Live Rail, The, 421
Live Rails, Protection of, 207
Live Steam Feed-water Heating, 184
Locomotive Derailments, Tank, 624
Locomotive Explosion in Paris, 397
London Wages, 371
Maritime Strike at Marseilles, 325
Motor Cars and the Public, 278
Municipal Expenditure, 474
Nozzles and Fans, 548
Pounds and Pennies, 64
Premium System, The, 301
Premium System and the Foundry, The, 599
Priming and Baffle Plates, 547
Rail Convention, International, 396
Rail Motor Cars, 160
Railway Accidents, 573
Railway Passenger *v.* Goods Traffic, 208
Resistance of Air to Trains, 303
Royal Agricultural Society, The, 347
Shipbuilding in Germany, 63, 448
Speed in Warships, The Value of, 114
Steam Boiler Energy, 13
Power Economics, 135
Traction on Common Roads, 447
Trials of Modern Warships, 473
Turbines, 474
Superheated Steam and Leakage, 118
Surface Contact Tramways, 326
Steel, 255, 623
Bridge Syndicate in Germany, 256
in England, Foreign, 14
Initial Stress in, 277
Model Tests for, 648
Structure of High-speed, 90
Syndicate Troubles, German, 114
Syndicate, A World-wide, 600
Trade Struggle, The, 373
Tank Engine Derailments, 624
Tariff Commission, The, 89
Thames Steamboats, 423
Theory of Matter, The New, 183
Trade and Science, 160
Tramways, Running Powers over, 38
Valves and Valve Gear, 500, (532)
Welsh Coal, 325

Sub-Leaders:
American Shipbuilding, 232
America and Industrial Alcohol, 61
Armour Plates, American, 135
Attempt to Wreck the Connecticut, 423
Belgian, Locomotive Construction, 161
Boiler Explosion in Paris, 38
Bridge, Renewing a Railway, 64
British Westinghouse Company, Limited, 575
Coal Contracts, Railway, 624
Chamois, Loss of the, 326
Coalminers' Wages, 208
Coal, Welsh, 257
Commander Peary's New Vessel, 423
Copper, 348
Corrosion, A Curious Case of, 115
Croton Dam, The, 209
Draught of Moving Steamers, 209
Dumping, 279
Dynamics of a Ship Launch, 449
Eight Hours' Day, The, 475
Electric Railway Coaches, 649
Electric Railway, A Single-phase, 257
Engineering Progress, 475
Engineers and Iron, 549
High-speed Cutting, 624
India, The Future of, 449
Iron Ore and the United Kingdom, 185
Iron Warrants, 90
Labour and Prosperity, 185
Lake Steamships, 475
Liverpool and Southport Railway, The, 184
London County Council Estimates, 624
Miners' Wages in Yorkshire, 14
Municipal Monopolies in Paris, 501
Specification, A, 91
Trading Accounts, 14
Oil Fuel Burners, 549
Panama Canal, The, 348
Patents, A Curiosity in, 232
Pneumatic Tools, 209
Railway Coal Contracts, The, 601
Railways, Careless Working on, 648
Rights of Property in Drawings, 601
Shipbuilding, American, 232
Shipbuilding, British and Foreign, 39
Standards for Electrical Machinery, 185
Steelmaking in the United States, 549
Steel Rails in Canada, 232
Sulphur, in Illuminating Gas, 161
Tramway Companies and Roadway Repairs, 91
Water Supply of New York, The, 115
Workmen's Trains, 525
Workshops at Sea, 601

LEAN, Mr. Joel, 163
Leeds, New Hospitals at, (368), 406
Leeds University, Financial Requirements, (597)

Legal Intelligence:
Baxter, Limited, H., *v.* Mr. H. R. Marsden, (445)
Estler Brothers *v.* J. Tylor and Sons, Limited, 601
Pearson *v.* Great Western Railway Company, 120
Pilkington, Limited, *v.* B. and S. Massey, 163
Secretary of State for War *v.* John Murray, (111)
Vail, Mr. T. L. Harding, 19

LEGAL Obligations of a Contractor, The, 173
Letter Weight, Callender's Cable, 30

Letters to the Editor:
Acetylene Gas Engines, Alf. Dougill and Co., Limited, 551; Frank Eames, 503
Adhesion of Steam Wagon Wheels, Alp, 532, 629; John I. Thornycroft and Co., Limited, 551
Air Ejectors, W. A. Granger, 551
Injectors, Inquirer, 532
Pump Efficiency, Henry Milne, 479
Pumps, Sykes Benn, 252, 352; D. A. Bremner, 280, 437; A. C. P., 280, 375; J. E. Weyman, 375
Australian Patents, Collison and Co., 330
Australian Trade Marks, Edward Evans and Co., 427
Bacterial Purification of Sewage, W. D. Scott-Moncrieff, 629
Ball Bearings, The Hoffman Manufacturing Company, Limited, 93; Thos. W. How, 43
Barrel Truck, John F. Elsworth, 93
Belts, Care and Usage of, Edwin Haviland, 92
Ben Nevis Observatory, Disestablishment of, W. W. Black, 579
Boiler Coverings, Silvanus P. Thompson, (110), 131
Explosion, The Paris, E. J., 93
Niclausse, H. P., 651; C. H. S., 93; F. L. Bassett, 93; Fred Hovenden, 93
Boilers, Circulation in, I. P. D., 187; Donald H. Lee, 235
for the Navy, Nauticus, 186
Water-tube and Reducing Valves, W. H. Bailey, 352; Bleacher's, Engineer, 280; Millowners, 252, 331; R., 331; Reducing, 280; Royles Limited, 280; H. S., 307; X., 280
"British" Goods Made in Germany, X. Y. Z., 43
Cable Groynes, R. G. Allanson Winn, 427
Centenarian Railway Advertisement, W. B., 479
Civil Engineers and our Export Trade, A Manufacturer, 131; Manufacturing Engineers, 186
Compression Tests, J. S. Wicksteed, 235
Corrosion, Curious Case of, J. S. V. Bickford, 131
Creeping of Rails, R., 43
Dry Air in the Blast Furnace, Philip Parsons, 532, 629
Efficiency of a Suction Gas Plant, Crossley Bros., Limited, 532
Electrolytic Methods of Treating Tin Scrap, Batchelor and Co., Limited, 131
Engineering Enterprises in Canada, The Western Outlook, 70
Engineers' Specifications, M.I.M.E., 453
Engines, High-speed Internal Combustion, F. Hope, 235
Engines, Pumping, Hathorn, Davey and Co., 532
Feed-water Heating, Beechwood, 213
Frictional Losses in Steam Turbines, R. M. Neilson, 331
Fenders for Motor Cars, Fred. T. Jane, 70
Girders, Plate Web—*see* Plate Web Girders
Heat Insulating Media, Relative Efficiency of, Lionel Cresswell, 43
H.M.S. Terrible, R. Mansel, 579; Navalis, 551, 606, 651; Perplexed, 532, 579, 629; Son of a Sea Cook, 551; Superintendent Engineer, 579, 628; Tiffy, 629
Hot Brasses, Hot Brasses, 579; Beechwood, 629; W. Rider, 605; R. Sproule, 605
Induced Draught, Philip Parsons, 629
Locomotives, High-speed, A Locomotive Fireman, 19
Locomotives, Derailment of Tank, C. E. Stretton, 605, 651
Locomotives on the Pennsylvania Railway, Performance of Express, E. L. Coster, 212
Manchester Sewage Disposal, Geo. F. Walter (130), 213
Manufacturers' Representatives, Contractor, 375
Motors, Air-cooled, Progress of the, Chas. W. Dixon, 352; F. W. Lanchester, 375
Motors, Air-cooled, and Big Castings, F. Strickland, 401
Motor Car Speeds, J. S. V. Bickford, 330; Geo. M. Seabroke, 330
Fenders for, Fred. T. Jane, 70
Length of, A, 606
and the Public, John Henry Knight, 307; Wm. M. Rose, 307
Vehicles, Avellana, 19; A., 19; A. V. Roe, 19
Nile Irrigation, W. Willcocks, 352, 401
Patent Laws, New, T. Jensen, 629
Pelton Wheels, J. Dawson, 213; Geo. T. Pardoe, (187), 213, 252; W. H. T., 187, (213), 235; A. Vane, 252
Plate Web Girders, J. D., 306; Walter H. Dickenson, 331; A Journeyman Draughtsman, 306; W. E. Lilly, 306; Midland Engineering Bureau, 331; J. R. Porter, 352; J. F. Robertson, 401; J. Kenneth Sargent, 401; S. Stansfield, 375; W. H. Thorpe, 306; U.S.A., 306; X.Y., 375; The Writer, 331
Postal Regulations, Victim, 401
Protection of the Live Rail, M. Inst. C.E., 235
Railway, 307
Pumping Acid Water, Australis, 331
Pumping Machinery, Cardiff Docks, Gwynnes Limited, 606
Pumps, Air—*see* Air Pumps
Rail Motor Carriages, Experienced, 307; A. Morris Bushell, 307
Railway Accidents, Clement E. Stretton, 605, 651
Motor Cars, E. W. Walker, 187
Motor Coaches, Old, C. W. V., 187
and Tramway Competition, W. V. B., 352
Reaction in a Diverging Nozzle, R. M. Neilson, (*see* 503), 532, 579, 629; Testor, 551, 606
Resistance of Air to Trains, R. S. K., 331
Screw Propellers, Arthur Rigg, 186
Screw Propulsion, Problem of, A. E. Berriman, 43
Secret Commissions, Fair Trade, 131
Shears, Circular, Joseph Rhodes and Sons, Limited, 353
Signals at Waterloo Station, Defective, Semaphore, 186
Standardised Water Fittings, Londoner, 651

Letters to the Editor *(continued)*:

Steam Coat Appropriation, Vapor, (453)
Engines, Power of, A. W. Brightmore, 70
Pipe Coverings, Silvanus P. Thompson, 70, 131
Traction on Common Roads, W. Fletcher, 479; James Robinson, 479
Pipe Coverings, Sam. H. Davies, 110, (131)
Production, Cheap, E. Bennis and Co., 651; Easton and Anderson, 651; C. D. Long, 629
Turbines, Testor, 503, (532)
Steel Failure, A Mysterious, Boilermaker, 306; Glasgow, 303; J. E. Stead, 306
(High-speed) Twist Drills and Milling Cutters, Cammell, Laird and Co., Limited, 110
Initial Stress in, Dunelm, 331; Senex, 331
Vanadium, Aug. F. Wiener, 18, 235
Storage Batteries, R. E. Crompton, 479
Summer Train Services, C. Reus-Marten, 187; Clement E. Stretton, 131
Tank Engine Derailments, Croxted, Clement E. Stretton, 651
Thames Passenger Steamers, Proposed, Loftus Patton Perkins, 579
Thermodynamic Problem, A, J. J., 651
Torpedoes in Action, Reflex, 306
Trade Expenditure, Supervision and Control of, A. Morris Bushell, 110
Tunnelling through Water-bearing Strata, B., 43
Turbine Efficiency, Student, 187; Robert H. Smith, 235; R. M. Neilson, 252
Turbines, J. A. S., 19
Turning Record, One Interested, 628
Valves and Valve Gear, W. T. Bell, (500), 532
Vanadium Steel, Aug. F. Wiener, 18, 235
Water Circulation in Boilers, H. Coke Powel, 110
Water Power in South Africa, Pioneer, 453

Letters from our own Correspondents:

Africa, South, Notes from, 48, 142, 216, 285, 430, 508, 582

America, Engineering Notes from, 91, 190, 239, 297

America, Notes from, 22, 74, 99, 122, 144, 170, 192, 218, 240, 310, 356, 380, 406, 432, 458, 509, 556, 608, 635, 656

Australia, Notes from, 171, 219, 456

England, North of, 21, 47, 73, 97, 121, 143, 169, 191, 217, 239, 263, 285, 309, 333, 355, 379, 405, 431, 457, 483, 507, 533, 555, 583, 607, 633, 655

Germany, 22, 48, 74, 97, 123, 145, 171, 192, 218, 241, 265, 287, 311, 334, 357, 380, 407, 432, 458, 485, 508, 535, 557, 584, 608, 634, 656

Iron, Coal, and General Trades of Birmingham, Wolverhampton, and other Districts, 20, 46, 72, 97, 121, 143, 169, 190, 216, 239, 263, 285, 309, 332, 354, 378, 404, 430, 456, 483, 506, 533, 554, 583, 606, 632, 654

Lancashire, 20, 46, 72, 97, 121, 143, 169, 190, 216, 239, 263, 285, 309, 332, 355, 378, 404, 430, 457, 483, 506, 533, 554, 583, 606, 633, 654

Newport Harbour Commissioners' Weekly Trade Reports, 22, 48, 74, 98, 122, 144, 170, 192, 218, 240, 264, 286, 310, 334, 356, 380, 406, 432, 458, 484, 508, 534, 556, 584, 608, 634, 656

Scotland, 21, 47, 73, 98, 122, 144, 170, 191, 217, 240, 264, 286, 310, 333, 356, 379, 405, 431, 457, 484, 507, 534, 555, 584, 607, 634, 655

Sheffield, 20, 47, 73, 97, 121, 143, 169, 191, 217, 239, 263, 285, 309, 333, 355, 378, 405, 431, 457, 483, 507, 533, 555, 583, 607, 633, 655

in South Africa, (216), (430)
Statistics, Colonial and Foreign, 125

Motors:
Air-cooled, 326, 352, 375, 401
Electric, used in the Olympia Cotton Mills, Columbia, (345)
Electric Motors in Factories, Rules for, 115
Horse-power Competition for Petrol, Capt. C. C. Longridge, 340
Internal Combustion, Mr. D. Clerk on Flame Temperatures in, 210
Petroleum, on Swedish Fishing Boats, (419)
Petroleum, on Thames Launches, (419)
Speed Controller for, American Electric and Controller Company of New York, 627

Motor Vehicles and Matters Connected therewith:
American Car and Foundry Company, New Establishment at Trafford Park, (571)
Armoured Motor Tractor, Messrs. Cammell, Laird and Co., 542
Autocycle Club, 1000 Mile Trials of Motor Cycles, (205)
Automobile Club, Map showing Routes for Small Car Trials, (134), 261
Motor Boat Reliability Trials, (571)
Prince of Wales Vice-patron of, (646)
Race for Tourist Cars Next Year, (571)
Trials of Small Cars, (205), (233)
of France, Cross-Channel Boat Race Organised by the, (157)
Automobile Mutual Protection Association, Meeting of Council, (253)
Automobile Service between Sukhim and Novorossiisk to be undertaken by Private Enterprize, (419)
Automobiles Exported from France, Value of, (621)
Automobilism, Costs of Electric, R. H. Smith on, 314
Bill to make Owners as well as Drivers Responsible for Accidents, in Germany, (521)
Boat Races, 61, 120, 131, 157, (299), (323), (345), (393), (471), (498), (597), (621)
Boats, Reliability Trials for, 165
British Motor Car Industry, Hands Employed in, (597)
British Motor Fittings, Tires, &c., Demand for, in Rome, (157)
Cars Belonging to the Motor Volunteer Corps, Intimation from the War-office Respecting the, (134)
and Cycles Registered on April 1 in the United Kingdom, (253); up to June, 1904, 11
in Use in France, 1903, (299)
in Use in the United Kingdom, Number of, (134)
for Ceylon, (578)
Chemical Fire Engine, The Wolseley, (296)
Clarkson's, Limited, Steam Omnibus for London, (323), 344
Compensation for Wear and Tear of, Allowed to Army Officers Using their Own on Public Service, (253)
Costs of Electric Automobilism, R. H. Smith on, 314
Demand in Calcutta for Motor Cars, (419)
Driving Wheels, The New, for Motor Cars of the Société Electromotion, (182)
Electric Bell to Notify Drivers when Speed Limit is Reached, (542)
Electric Motor Carriage Brought Out in Paris, Employing Slow-speed Motors, (380)
Four Thousand Miles Motor Car Trial, 601
French Firms Engaged in Manufacture of, (471)
Ministry of Marine, Official Race for Motor Boats from Calais to Dover, (498)
Motor Car Championship, Hill-climbing Competition, (230)
Gordon Bennett Cup Race, (471)
Great Western Motor Coach Services, (345), 442
Heavy Motor Traffic, 201
Imports of Motor Cars for July, (230)
Italy, Number of Motor Cars in, (11), (230)
Jeantaud's Experiments with, on a Dry and a Muddy Road, (345)
Lancashire Steam Motor Company's Works, Leyland, 270
Length of, A., 606
Legal Tangle for Owners of, (546)
Letters on, from Avellana, A., Q. V. Roe, (19)
Light Motor Car, Progress of the, Mr. W. W. Beaumont, 580
Lorry Used for Transport by the 20th Middlesex Rifle Volunteers, (134)
Madagascar, (182)
Manœuvring Ground for, around Chalons Camp, (253)

Motor Vehicles and Matters Connected therewith *(continued)*:
Martini Motor Car, 4000 Miles Trial, 601
Motor Boat Races, 61, 120, 131, 157, (299), (323), (345), (393), (471), (498), (597), (621)
Car Act of 1903, The Devonshire County Council and the, (323)

Palladium, Its Properties, (11), (521)
Paret, Mr. Dunkin, on Experimental Work with Solid Emery Wheels, 202
Paris Anti-Dust League, (35)
Parker, Limited, Thos., Annual Report, (20)
Patent Infringement Case, (445)
Laws, New, 2, 629
Office, Examination for Situations as Assistant Examiners in the, (471)
Rights of Employers and Workmen, 315
Rules, 1905, 531
Patents, Abstracts of British, Publication Called, (445)
Australian, (330)
A Curiosity in, 232

Patents, Selected American:
Air Compressor, S. E. Alley, 658
Ammunition Hoist, J. F. Metten, 288
Axe Head with Removable Bit, L. L. Gilks, 220
Axles of Vehicles, Pillow or Bush, J. H. Monbeig and P. Forsans, 288
Blast Furnace Top and Charging Device, Vaughan, M'Clure and Boynton, 408
Boiler, Locomotive, J. Muhr, 486
Boiler, Vertical Tubular, W. Norris, 336
Bridge Pier, B. F. Hudson, 658
Burning Portland Cement Clinker, &c., Apparatus for, T. A. Edison, 24
Car Wheel, G. W. Curfman, 336
Carrier or Conveyor for Projectiles, &c., C. P. E. Schneider, 100
Clamp, E. E. Aires, 124
Compensating Balance, J. H. Purdy, 76
Concrete Piles, F. Shuman, 146
Condensers, T. M. Egnon, 146
Condenser System, W. C. Brown, 24
Condensing Air Pump, J. Wilhelmi, 50
Conveyor Rollers, F. N. Merrill, 510
Cooling Cylinders of Explosive Engines, F. H. Marsh and C. W. Nichols, 24
Cooling Mechanism for Explosive Engines, F. Reaugh, 636
Couplings, Rolling Mill, M. M. Suppes, 408

Patents, Selected American *(continued)*
Crushing Mill, E. C. Griffin, 510
Driving Belt, A. Fritz, 24
Electric Machines, Coil-retaining Means for I. D. Kaiser, 266
Electric Motors, Synchronous, A. Churchward, 312
Engine, Duplex Pumping, E. Vogel, 358
Explosive, H. Söhnlein, 558
Gas, or other Internal Combustion, D. Clerk, 486
Internal Combustion, Roberts, James and Young, 536
Internal Combustion, H. C. Waite, 194
Feed Mechanism for Explosive Engines, L. F. Washbourne, 146
Fuel-feed Apparatus, Pulverulent, W. F. Wolfe, 146
Furnace, F. M. Greene, 312
Electric, C. G. P. de Laval, 382
Grate for Smokeless Combustion, F. Girtanner, 100
Shaft, for Destruction of Refuse, H. Ochwat, 510
Tilting, Metallurgical, J. A. Potter, 510
Gas Coal, Settle and Padfield, 146
Gas Producer, W. J. Crossley and T. Rigby 434
Glass Furnace, W. T. Nicholls, 194
Hopper-feeding Device for Gas Producers, W. J. Knox, 124
Hydraulic Press, E. Crowe, 220, 288
Hydraulic Rail-binding Tool, C. Wigtel, 172
Lamp, Hydro-carbon Incandescent, G. Washington, 124
Locomotive Car Seat, B. W. Anderson, 312
Locomotive Tender Frame, T. E. Adams, 658
Luminants for Incandescent Lamps, F. M. F. Cazin, 636
Metal Dam, J. L. Holmes, 586
Motor, E. S. Pillsbury and E. Bretch, 585
Vehicles, E. S. Lee, 242
Vehicles, Fitting for Preventing Side-slip, W. Rourke, 242
Nitrating Fibrous Matters, J. Selwig, 242
Oil-extracting Apparatus, M. Kirshner, 146
Ordnance, Carriage for Disappearing, F. Rausenberger, 486
Packing for Pistons and Piston Valves, J. T. Wilson, 50
Percussion Fuse, A. T. Dawson and L. Silverman, 312
Pressure Gauge, G. Spencer, 194
Pump, Centrifugal, T. Reuter, 610
Condensing Air, J. Wilhelmi, 50
Pollycellular Centrifugal, A. Maginot, 658
Pumping Apparatus, A. C. E. Rateau, 312, 382
Regulating Device for Motors or Engines, F. Reichenbach, 636
Screw-threading Die, A. M. Saunders, 146
Sighting Tube for Vessels, S. Lake, 50
Soldering Apparatus, Wirth and Besch, 358
Speed Gear, Variable, W. T. Leighton, 124
Speed Transmission Device, Variable, W. Evans and P. W. Knauf, 76
Spindle Bearing, A. Morcom, 536
Starting Vaporiser for Explosive Engines, A. Wassmann and A. A. Low, 460
Staying Plates, J. M. McClellan, 510
Stuffing-box, A. L. Dudley, 76
Superheater, C. Hagans, 610
Steam, E. Pielock, 220
J. H. Rosenthal, 382
Thermo-static Device, C. F. Hilkier, 172
Tongs for Furnace-charging Cranes, C. I. Taylor, 124
Tubes, Manufacture of, A. E. Beck and G. Townsend, 586
Turbine, A. M. Levin, 658
Bucket, H. Geisenhauer, 434
Centrifugal, F. Ray, 312
Elastic Fluid, W. J. Cartwright, 558
Forming U-shaped Buckets in, Messrs. Kaufhold and Hofmann, 266
Generator, W. L. R. Emmett and O. Junggren, 434
of the Multiple-expansion Type, C. F. L. Brown, 460
Marine Steam, C. A. Parsons, 460
Steam, B. M. Dutton, 408
P. J. Hedlund, 358
S. N. Smith, 610
J. Stumpf, 100
G. Weichell, 336
Valve Mechanism for Air Compressors, A. W. and Z. W. Daw, 266
Thermostatic, W. E. Barnes, 336
Vanadium and Tin Alloys, G. Gin, 242
Water Meter, F. Lambert, 220
Wire, Iron or Steel, F. Forsberg, 486

PATRICK Metal, (48)
Paving Flags from Destructor Slag, Manufacture of, 41
Peat Fuel made in Germany, (370)
Petrol Lamp, A, Clarafax Lamp Company, 428
Petrol Launches on the Thames, (419)
Pelton Wheels, (187), 213, 235, 252
Petroleum, California, (597)
Largest Flow ever Struck in Western Virginia, (323)
Production, United States, (471)
Storage Tanks, Barrow, (498)
Photographic Apparatus recording 2000 Impressions per Second, (471)
Physical Laboratory, The National, Dr. Glazebrook's Report on its Work, 243, 452
Pipe, 10 square feet of bore, filled with Steam at 100 lb. pressure, corresponds to the Waste of Two Tons of Coal per Annum, (182)
Plate Girder Webs, 257, 306
Platinum Deposits in Eastern Russia, Works for Exploitation of, (205)
Output in Russia, (471)
World's Production, its Price since the War in the East, (498)
Pneumatic Tools, 209
Pneumatic Tubes for Chicago Post-office, Nine Miles of, (276)
Point of View, The, Mr. Walter C. Kerr, 653
Polarity Indicator, A Simple and Effective, (498)
Pontoon, South Shields, Teesside Bridge and Engineering Company, (534)
Portland Cement Industry in Canada, (498)
Portland Cement—*see* also Cement, Portland
Postal Regulations, (401)

Postal Service and Letter Rates in France, Needed Reforms, (471)
Pounds and Pennies, 64
Powell Wood Preserving Process, The, 452
Premier (Transvaal) Diamond Mine, by Stafford Ransome, 588
Press, Belt-driven Die, Messrs. Taylor and Challen, 71
Pressure on Magnetic Induction, Apparatus for Ascertaining Effect of, (345)
Prime Movers, Potential Efficiency of, C. V. Kerr, 68
Priming and Baffle Plates, 547
Pulley, 22ft. Diameter Rope, 454
Pumps, Air, 252, 280, 375, 427, 479
  Automatic Gas, (205)

Egypt, Cairo to Port Said, (205)
  Ismailia to Port Said, Broad Line, (205)
  Sudan-Atbara Line, Tyer's Electric Tablet and Vacuum Automatic Brakes, (205)
Glasgow and South-Western, Half-yearly Report, (253)
Gold Coast, Mr. Allison Smith's Appointment, (529)
Great Central, 40-Ton Wagons Ordered, (393)
  Railways to be Transferred to, (445)
  Special Train through between Manchester and Plymouth, (445)
Great Eastern, Dividends Announced, (85)
  Motor Omnibus Service, (85)
  Mr. H. G. Drury Retires, (597)
Great Northern, Appointment of Mr. Marsh, (498)
  of Ireland, Dividend Recommended, (85)
  of Scotland, Sir D. Stewart Appointed Chairman, (323)
Great Western, Longest Non-stopping Railway Run in the World, C. Rous-Marten, 33
  More Workmen's Trains and Reduced Fares, (579)
  Motor Car Service, Slough and Windsor, (15), (83); Torquay and Paignton, (61)
  New Route to the West, Castle Cary and Lamport Railway, 576
  Pearson &c., 120
  Rates and Taxes Paid by, (253)
  Road Motor Car Service between Calne and Marlborough, (345)
  Extension of Motor Coach Services on the, 442
  Steam Motor Service on the Ruabon-Dolgelly Branch, (11)
  Total Single-track Mileage, (370)
  Winter Services, (345)
Gross Receipts, Passenger and Goods Traffic, 1903, (276)
Indian, Agra-Delhi Chord, (445)
  Bengal-Nagpur, (253)
  and the British Manufacturer in 1903, 339
  Standard Time on, (247), (276); Capital Outlay of the Close of 1903, (299); Addition to Rolling Stock on, (299); Mileage Opened, 1903, (299)
  Ceylon Government Line, Receipts and Mileage, 1903, (597)
  Formation of a Board of Management Sanctioned by the Government, (323)
  Goods Traffic on, (61), (323)
  Kalka Simla, Necessity to Increase the Borrowing Powers, (546)
  Madras, Lord Sandhurst Appointed Director, (445)
  New Mileage to be Opened and Under Construction, (61); Total Length Open for Traffic, 1903, (61)
  North-Western Electric Punkahs and Light, (498)
  Official Report on, for 1903, (11)
  Passenger Traffic on, 487
  Peninsula, The Great, Net Revenue and Dividend, (597)
  South, Total Revenue Earnings, (571)
Inter-Oceanic, 526
Lagos Extension Scheme, (571)
Lancashire and Yorkshire, Decrease in the Traffic, (393)
London, Brighton and South Coast, Dividend Proposed, (85)
London, Brighton and South Coast, Mr. Marsh's Appointment, (498)
London, Chatham and Dover, Dividend Proposed, (85)
London Metropolitan Extensions, President of the Board of Trade on, (498)
London and North-Western, Accelerated Services to and from Glasgow, (323); Proposed New Line between Hurdlow, Bolsover, and Matlock, (419); Success of the "Precursor" Class of Locomotives on, (419)
  Long Distance Non-stop Run, (646)
  Recent Locomotive Work on the, Mr. Charles Rous-Marten, 438, 511, 559, 611
  Short Hours at Crewe, (471)
  Sidings at Welham Junction, (498)
London and South-Western Rolling Stock, 614, 628
Metropolitan, Conversion to Electric Traction, (35), 591; Report for Past Half-year, (111)
  District Extension to Uxbridge, (11); French Rolling Stock Ordered for, (157)
Midland, Mr. Elliott's Appointment, (646)
  Half-yearly Report, (182); Steam Motor Coaches, 204, 206
  Mr. H. Evans Appointed Goods Manager, (621)
  New Re-labelling Station at Toton, (498)
  Second-class Carriages on, Abolished Thirty Years Ago, (646); Steamboats for, (182)
  Steam Motor Services, (11)
  Traffic Last Half-year, (393)
Mileage, Goods Train, Reduction in, 1903, (276)
Mileage of, at the End of 1903, (276)
Money Invested in Home Railways, (276)
Queensland, New Enterprise, (323)
Natal and Orangia, New Lines Projected, (299)
Natal and the Inter-colonial Council, Agreement between, (323)
New South Wales, (345), 350
New Zealand, Report for 1903, 303; Mileage added, (276); Revenue, 1903, (276)
North-Eastern, Electrification to Darlington, (205)
  Electric Autocar Service, Scarborough and Filey, (191)
  No more First-class Contract Tickets on the Electrified Portion of the System, (370)
  Officials Sent to the United States to Report on Transportation Methods, (379)
North British, Appointment of Mr. W. P. Reid, (11)
North British, College Goods Station, 627
North London, Receipts, Expenses, Traffic, (157)
South-Eastern and London, Chatham, and Dover, Extensions Projected, (521)
  and London, Chatham, and Dover, Managing Committee's Accounts, (85)
  and Chatham, New Station at Elmstead, (35)
  Opening of New Loop Lines, (35)
  Special Train on December 23, (546)
  Through Corridor Carriage from Calais, (85)
Southport and Cheshire Lines Extension, Half-yearly Report, (253)
Sunderland—Darlington—Barrow, (431), (471), (546)
Taff Vale, Motor Car Services and Dividend, (122), (370), (379)
Tasmanian, Working of, Revenue, Expenditure, &c., (219)
Transvaal and Natal Extensions, (299), (323)
  New Line, Fourteen Streams to Klerksdorp, (61)
Uganda, March Traffic Report, (205)
Victorian, Report for Year ending June 30th, 1904, (546), 565
Wales, Aberystwith to Aberayrow, Proposed, (597)
  New Lines in Progress, (608)
West of England and Sunderland, New Line Projected, (393)

Railways, Electric:
America, Single-phase Motors for Railway Work in favour, (546)
Baker-street and Waterloo, (111)
Berlin—Hamburg, Projected, (521)
Berlin Overhead and Underground, Passengers Carried on, (276)
Canada, Mileage of Street, (253)
Central London, Dividend for Half-year and Balance brought forward, (111)
  Extensions Projected, (521)
  Two-minute Services, (498)
Central South African, Springs—Randfontein Section, (582)
Chicago Elevated, 72
Conway to Bettws-y-Coed, (170)
Fire Precautions on, 441
Fort Wayne, Springfield, and Decatur Line, Single-phase System, (134)
Great Northern, Piccadilly, and Brompton, (134)
Italy, Milan through Varese to Lugano, (230)
Live Rails, Liverpool and Southport, Deaths Caused by Stepping on, 207, (345)
  Protection and Dangers of, 207
  Professor S. P. Thompson on the Dangers of, 235, 307, (370), 421
Liverpool and Southport, 185; Death Caused by Stepping on Live Rail, (345)
London, District Trains to begin to Run January 1st, (393)
London, Proposed Overhead Railway above the Regent's Canal, (546)
Main Line Railways, 609
Manila, (597)
Metropolitan District, Financial Matters, (540)
  District, Rolling Stock on, 649
  Electrification of the, 591
  Neasden Section, (498)
Newcastle and North Shields, (35)
Newcastle and Tynemouth, (21)
New Zealand, Dunedin, (230)
North-Eastern Railway, and upon Tyneside, Use of Electricity on, Chas. H. Merz and Wm. McLellan, (21), 221, 260, 282
  Service Maintained Throughout Heavy Snowfall, (571)
  Trial Trips, Current Collecting from Overhead Wires, (498)
  Suburban Lines, Newcastle and Tynemouth and Riverside Branches, (144)
Nurnberg-Further Street, Cost of Power of, (111)
Paris Metropolitan Lines, Nos. 3, 4, 7, (230), (299), (521), (546)
Passengers as Speed Indicators, 327
Rolling Stock for, 649
Single-phase, The First in the United States, 257
Sleet from the Third Rail by Heating, Removal of, (323)
Swedish State, Projected Electrification of, (61)
Swiss, Jungfrau, (35), (85), (230)
United States, Bloomington, Pontiac and Joliet, Cars of, (471)
  Boston Elevated, (597)
  Bridgeport, Experiments as to Current Required for Heating a Third Rail to Remove Sleet, (299)
  Illinois, Kewanee and Geneseo, (299)
  Inter-State, Limited, (597)

Railways, Electric (*continued*):
United States, Kansas City, Test of Device for Increasing Traction by Magnetism, (299)
  Lake Erie and Western, Experiment in Electrification, (35)
  New York, Attempt to Prohibit Transportation of Goods through the City Streets, (546)
  Central and Hudson River Railway, (521), 542, 543, 544, 545
  New Haven and Hartford, (85), 319, (471)
  Rapid Transit, (597)
  Subway, (205), (299)
Oregon Water Power and Railway Company, (111)
Philadelphia, Lancaster and Harrisburg, (230)
St. Louis, Feat in Street Railway Transportation, (393)
St. Louis, Transit and Suburban Trains, Traffic, (471)

Railways, Foreign:
Abyssinia, Internationalisation of Royal Lines, (182)
Africa, East, Ivory Coast, (621)
Algeria, Ben Zireg and Kenadza, (253)
American, Gross Earnings of Twenty-seven, (597)
Argentine, (345)
Austrian, Semmering, Fiftieth Anniversary of its Opening, (157)
Belgian, Ourthe Line, Doubling of, (134)
Belgian State, Doubling several Sections, (157)
Brazil, Sorocobana Railway Purchased by the Government, (182)
Chile, (276)
Chilian-Transandine, (345)
China, Canton-Hankow, Canton Merchants Purchase the American Interest in, (445)
  Shanghai and Canton, (35)
  Shanghai-Nanking, (182)
Congo Free State, Reduced Rates to Encourage Traffic, (597)
Corea, Overland Route from Europe by way of Siberia to, (157)
Dahomey, (276)
Danish, Unsatisfactory Results as far as Returns are concerned, Law to Regulate the Working anew, (366)
Egyptian State, Receipts and Expenses, (419)
Egyptian State, Special Commission to Report upon, (419)
Finland, Extensions Completed, (393)
France, Aix-les-Thermes to Ripoll, (205), (230)
  Castelsarrasin and Beaumont de Lomagne, (471)
  Eastern of, Gross Receipts, (111)
  Orleans Extension, (393)
  Paris-Lyons-Mediterranean, Accelerated Winter Service, (205)
  Paris-Lyons-Mediterranean, The Côte d'Azur Rapide, (546)
  Paris Metropolitan, Line No. 3 Opened for Traffic, (11)
  Long Bogie Carriages, Lengthening of Platforms, (157)
  Traffic, Receipts, Expenditure, Capital, (157)
  Luchon, Venasque, Mouzon, (498)
  Nice to Cuneo, &c., (61)
  Rethel and Guignicourt, (11)
  Trans-Pyrenean, (205), (230), 376
  Villefranche to Bourg-Madame, (393)
French Guinea, The Conakry-Niger in, (596)
French Systems, Collective Length of Line in the Seven Large, (621)
German, Africa, West, Togo, New Line Projected, (230)
  East African, Issue of Shares for, (597)
  Protectorate, Togoland, (445)
  Standard Gauge, Mileage of, (230)
Guatemala Central, Mileage and Gross Earnings, (299)
Japan, Little Progress in Railway Extension, (61)
  Mileage Opened in 1902, 1903, (157)
  Total Mileage, (419)
Madagascar, (253)
Malay States, Line through Johore, (61)
Mexican, (276), (345)
Netherlands, (546)
Ottoman, Extensions, (323)
Peru and Bolivia, New Lines Projected, (323), (345)
Peru, Extensions Authorised, (393)
Portugal, Extensions, (11)
Prussian State, Electrically Lighted Trains, (571)
Rio Grande do Sul, Mileage, (111)
Russian, Asiatic Strategic, (419)
  The Catharine, Second Line Opened, (370)
  Circum-Baikal, (299), (323), (331), 418
  Kherson to Nicolaieff, (445)
  Moscow and Briansk, The Kaluga Branch, (196)
  Moscow-Windau, (317)
  New Mileage Opened to Traffic in 1904, (646)
  Nicolas, Growth of Traffic, Projected Fourth Rail, (419)
  Nyslott to Elisenvaara, (345)
  Operations of, for 1902, (335)
  Orenburg-Tashkent, (205), (253), (375), (419)
  Riga-Tuckum, Second Line, (304)
  State, Automobiles for the Use of, (621)
  Women Employed on, (621)
  Railway, Budget for 1904, (393)
  Trans-Siberian, Doubling of Line, (134), (445) (594)
  Trans-Siberian, Report on the Working, (370)
  Riazan-Uralsk, Connection with Astrakhan abandoned, (471)
  St. Petersburg-Vitebsk, (205)

Railways, Foreign *(continued)*:

Russian, Vladicaucas Railway to be Purchased by, (646)
Warsaw-Baku Projected, (419)
Western Siberia, Omsk-Tinmen Projected, (419)
Senegal, Kagos to Bamako, (61)
Spain, Secondary Railways in, (187)
Spain, Trans-Pyreneean, (205), (230), 376
Suakin-Athara, (111)
Sweden, East Coast, (134)
New Lines from Halmstad, Herrljland and Gelle, Gothenburg to Strömstadt, (134)
Scheme for Electrification of all State Lines, (61)
Swedish, State Experiments with Electric Motive Power on, (157)
Swiss, Albula, 82, 127
Eiger Tunnel, (230)
Mont Blanc, (205)
Result of the Purchase by the Central Government, (419)
Simplon Tunnel and the Hot Springs, 179, 244, 341, 385. 415, 488, 489, 568
under the Bernese Oberland, to Join the Simplon Tunnel Line, (621). (646)
Turkey, Bagdad and Anatolian. (230)
Haifa-Damascus Line, Work Resumed, (157)
United States, Atlanta, Ga., and Birmingham, Ala., (230)
Block Signalling to be Made Compulsory, (646)

Maryland, 651
Montana, (370), 601
New Carolina, 115, (253), (371), 601
New, (182), (370)
Pennsylvania, 625
Tennessee, (321)

Torpedo Craft, Destroyers, Gunboats Scouts, Submarines.
British:
Destroyers, Ardent, 391
Boxer, 391
Chamois, 391
Dragon, 391
Exe Class, 15
Scouts, Adventure Launched, (286)
Attentive, (521)
Forward Launched, (230)
Pathfinder, Cammell, Laird and Co., (73), 96
Patrol, (378)
Sentinel, (20), (655)
Submarine A 1, 96
Submarine B 1, (419), (521), (621), (625)

Ships:

Torpedo Craft, Destroyers, Gunboats, Scouts, Submarines.

British (*continued*):

Torpedo Boat Destroyers, Delivered to the Admiralty, (286)
Boat, Motor, to be Built, (35)
Gunboats with Small-tube Boilers for Training Stokers, (419)
Turbine-propelled, Yarrow and Co., 72

Torpedo Craft, Destroyers, Gunboats, Scouts, Submarines.

Foreign:

Austrian, River Monitor, Temes and Bodrog, 225
Austrian Torpedo Boat Flotilla, Reconstruction of, (182)
Chilian, Submarine Urzua Cruzat, (453)
Dutch Torpedo Boats, Successful Trials of, Tangka, Wajung and Smeroe, (453)
French Submarines, Additional Station for, at Calais, (157)
Regulations for Service on Board, (157)
Alose, (419)
Emeraude, Opale and Rubis, (646)
Emeraude Type, Fitted with New Type of Accumulator, (276)
of 100 Tons Displacement Designed by Marquis de Dion, (182)
X Launched, (546), 625
M. Laubœuf's Plans for, (276)
Ordered at Cherbourg, (443)
French Torpedo Boat No. 294 Driven by a Breguet Turbine, (276)
French Torpedo Gunboat Condor, 625
German Torpedo Boat Trials, (276)
Italian Submarine Delfino, (253)
Japan, Submarines Supposed to be for, (453)
Swedish Submarine Hayem, 115
United States, Holland Submarine Boat Fulton, (85)
Scout Birmingham, Arming of 115, (253)
Scout Chester, Arming of, 115, (253)
Salem, Arming of, 115, (253)

Mercantile, Passenger, and Various. British:

Admiralty Yacht Enchantress, (546)
Allan Liner Virginian, 649
British India Steam Navigation Company, Steamer of 12,000 Tons, Messrs. Wm. Doxford and Son, (217)
Canada, Fisheries Cruiser, Vickers, Sons and Maxim, 202, 203
Coal Steamers, Cardiff, (286)
Cunarder, The Caronia, (11), (35), 59; Number of Rivets Used in Her, (521)
Dredgers, 420, 428, (497), 520, (521), 530, 544, (546)
Dufferin, The, Troopship, Vickers, Sons and Maxim, (607)
Frühling System Hopper Dredger Thames, (497)
Ice-breakers for Canada, Sir W. G. Armstrong, Whitworth and Co., (170)
Motor Boat Race, The Mediterranean, (597), (621)
Boat Trials, 165
Yacht, Hummono, 332
Screw Steamer, Port Kingston, Messrs. Elder, Dempster and Co., (218)
Steam Dredger Vulcan, Messrs. Ferguson Brothers, 420, 428
Steamer and Accommodation Boat and Officers' Inspection Boat, Bengal Canal, 641
Thames Steamboats, The London County Council and, (253), 423, 427, 449, 541, 579, 620
Troopship Dufferin Launched, (285)
Turbine Atlantic Liners, 649
Steamers, Cross-Channel, South-Eastern and Chatham Company, (230)
Steamer, Isle of Man Steam Packet Company, Armstrong, Whitworth and Co., (182), (217), (333)
Steamer Loongana, Average Speed, (471)
White Star Liner Baltic, (11)
White Star Liner Persic, Record Trip, (134)

Mercantile, Passenger, and Various. Foreign:

Austrian Yacht, Made of Paper, (546)
Danish Train Ferries, 550
French, Automobile Vedette, the Neva, with Explosion Motor, (546)
Coast Defence Ship Furieux, (111)
German Atlantic Lines, Organisation of Competition Lines against the Cunard and the Adria, (230)
Gas Engine Launch, 25 Horse-power, 389
Hamburg-America, Fifteen New Steamers Ordered, (546), (597)
Norddeutscher Lloyd, Ship now Building at the Vulcan Works to go Faster than the Cunarders, (276)
North German Liner Kaiser Wilhelm II., Record Voyages and Number of Passengers, (241), (370)

Ships:

Mercantile, Passenger, and Various. Foreign (*continued*):

United States, Allan Line, Ocean Newspapers, (182)
Peary's New Arctic Vessel, 416, 423
Augustus B. Wolvin, (134)
Gasoline-driven Pleasure Craft, (370)
Glass-bottomed Pleasure Boats, (253)
Knapp Roller Boat to be Remodelled, (230)
Lake Steamers, (471), 475
Largest Ferry Boats in the, (621)
Steel Vessel, Interior Furnished like a Pullman Car, (471)
Turbine Steamer for Passenger Service on the Lakes, (471)

SHIP-WORMS on Australian Hardwoods, Ravages of, 418
Shoe and Leather Fair, The, 451
Sicily, Municipal Trading in, (134)
Silver Bullion, Average Price Paid for, by the Royal Mint, (61)
Simplon Tunnel, Hot Springs and the, 179, 244, 341, 385, 415, 488, 489, 568
Singer Company's Work, Extension of the, 265
Skerne Works, Sale of, (98)
Smith, Mr. W. Ford, 349

Smithfield Show

Agricultural Engines, 578
Light Tractors and Motor Wagons, Exhibitors of, 578
Oil Engines, Exhibitors of, 578
Road Locomotives, 578
Swath Turners, Mr. T. M. Jarmain and Mr. R. Maynard, 578

Society of Arts:

Meetings Previous to Christmas and during January, (478), (625)

Society, Bradford Engineering:

Commercial Aspects of Power Plants in Factories, Mr. H. W. Morley, 531
Electric Driving in Works and Factories, Advantages of, Mr. G. H. Bowden, 606
Future of the Steam Engine, Professor G. F. Charnock, 401
Steel in Modern Buildings, Use of, Professor John Goodman, (430), 531
Transmission of Power by Ropes, Mr. Edwin Kenyon, 619

Society of Civil Engineers, American:

Destruction of a Mississippi Bridge by Wind, Mr. C. A. P. Turner, 590

Society, Coventry Engineering:

Visit to Messrs. Willans and Robinson's Works, 115

Society, Crystal Palace Old Students':

(451)

Society of Engineers:

Conversazione, 506
Jubilee of, (240)
Members Elected, Premiums Awarded, 608
Next Ordinary Meeting, Paper to be Read by Mr. R. G. Allanson-Winn, (331)
Visit to the Portland Cement Works of Martin, Earle and Co., Limited, 22
to Yarrow and Co.'s Works, (110)
to Broadwood and Son's Factory, (363)

Society of Engineers, Amalgamated:

Alterations of Rules, Proposed, (393)

Society, Glasgow Technical College, Scientific:

Annual Dinner, (619)

Society, Glasgow University Engineering:

Presidential Address of Mr. Chamen, 484
Sewage Plant, Notes on, Mr. A. H. Morton, (592)
Syllabus of Remaining Meetings for Present Session, (467)

Society, Faraday:

Electric Furnace, Mr. A. Minet, (654)
Electrolytic Analysis of Cobalt and Nickel, Dr. F. M. Perkin and Mr. W. C. Prebble, (654)
Electrolytic Preparation of Tin Paste, Mr. F. Gelstharp, (654)
To Publish its Own Transactions, (402)
Paper to be Read October 25th, (406)

Society, Leeds University Engineering:

French Foundry Practice, Mr. G. H. Attock, (532)
Maximum Efficiency of Boilers without Injuring them, Difficulty of Attaining, Mr. C. E. Stromeyer, (620)
Newcastle High-level Bridge, Mr. J. H. Walker, (643)

Society, Liverpool Engineering:

Opening Meeting, Programme for Succeeding Meetings, (425)

Society of Mechanical Engineers, American:

Water-tube Boilers: Cause and Remedies, Bad Case of Discharge of Water with Steam from, A. Bement, 604, 630

Society, Physical:

High-frequency Alternator, Mr. W. Duddell, 630
Measurement of Small Differences of Phase, Dr. W. E. Sumpner, 632
Pacific Cable, Retardation of Signalling Current on, Prof. W. E. Ayrton, 625

Society, Rontgen:

Ordinary General Meeting, Presidential Address, (430)

Society, Rugby Engineering:

Metric System, Discussion on, (334)

SODA and Magnesia Lakes in Wyoming, (230)
South African Mining and the Inventor, 322, 352
Southport, Sewage Purification Scheme, (546)
Spain, Law of Local Roads in, (276)
Specific Heat of Superheated Steam, Robert H. Smith, 25
Speed Indicator, Milner's, 551
Spezia, Drainage Scheme for, (61), (134)
Spring Testing Machine, The Reavell Pneumatic, 44
Standard Times for India, The Government's Proposal, (553)
Starr Brass Indicator, 479
Steam Cost Appropriation, (453)
Engines—*see* Engines
Exhaust, Utilisation of, in Steam Turbines, M. L. Battu on, 455
Pipe Coverings, 70, 110, 131, 156
for Power, Gas, Oil, and, 377, 403
Power Plant, Design and Test of a Modern, 107, 118, 119; Mr. E. G. Hiller (Leader referring to the same), (113)
Production, Cheap, 629, 651
Specific Heat of Superheated, Robert H. Smith, 25
Superheated, and Reheaters, Mr. L. S. Marks, 29
Traction on Common Roads, 447, 467, 479
Trap, Water Seal, 504

Steel:

Agreement with Regard to Selling Prices, Question of an, (370)
Aluminium Used in Pouring Chrome Steel to Destroy the Oxide Formed, (521)
American Steel and Wire Company's Works, Cleveland, 514
Basic Bessemer Works, Neuves Maisons, France, (323); Manipulation of Ladle by Overhead Cranes Worked by Electric Motors, (323)
Bridge Syndicate in Germany, 256
Building, Concrete (Hennebique System), Ottawa, (157)
Chimney, The Highest in America, (621)
Chimney, 230ft. High, (253)
Chrome-Vanadium, Heat Treatment Experiments with, Captain H. R. Sankey and Mr. J. K. Smith, 615, 623
Commercial Sheet, for Armature Construction, Mr. T. S. Allen's Tests, (111)
Conference of North of England and West of Scotland Steelmakers on the Question of Underselling, (393)
Cutting, High Speed, Emery Wheel for, (276)
Electric Furnace for Production of, at Work in Sweden, (323)
Failure, A Mysterious, Letters on, 306
Foreign, in England, 14
Fracture of Structural, under Alternating Stresses, John Oliver Arnold, 227, 248, 308 (*see* also 255, 277)
German, Imported into England, (370)
High-speed, Its Development and Use, Mr. Gledhill, 464, 482
Ideal, 18
Imported into England from America and Belgium, (334)
Indentation Tests on, M. Guillery on, 426
Industry, United States, Important Move in the, made by the United States Shipbuilding Company, (356)
Initial Stress in, 277, 331
Leader on, 255
Manufacture of, Mr. Bradley Stoughton, 537
Open-hearth Process, Its Advantages over the Bessemer Process, (134)
Open-hearth, Statistics of Production in 1903, (370)
Plate Convention, A British, 422
Plates and Tubes, Advantages of Nickel over Carbon, (134)
Prices, A Working Basis of, to be Agreed on, (323)
Protection of, from Corrosion, New York Navy Yard, (253)
Rail Combination, International, (431)
Steel Work for Docks in South America, Important Contract obtained by the Patent Shaft Company, (521)
Structure of High-speed, 90
Syndicate, German, Its Functions, (111), 256; its Troubles, 114
Projected, by English Firms, (471)
A World-wide, 600
Tank, Large, for Canada, (97)
Temperatures of Transformation of, (419)
Test, High-speed, at St. Louis Exhibition, (323)
Tester, Prof. Arnold's, 308
Testing, Prof. Unwin on, 187
Tests, Model, 648
Tons of, Produced in Great Britain, Germany, and America for every 100 Tons of Pig, (323)
Tools, High-speed, (479)
Tool, A Remarkable Test of, (571)
Trade, Depression in, (323)
Twist Drills and Milling Cutters, High-speed, Cammell, Laird and Co., 110
United States, First Accounts of the Susquehanna Iron and Steel Company, 549
Unit Stresses for Structural, Tendency towards Higher, (61)
Use of, in Modern Buildings, Professor John Goodman, 531
Used in Construction of Coal-storage Plant, New York Navy Yard, (230)
Vanadium, 18, 235, 615, 623
Works in America, Weight of Lump or Gravel Fluorspar used as a Flux in, (393)
Belgian, their Position, 548
at Jarrow Closed, (323)
of the Maryland Company, Sparrow's Point, 642

STEPHENSON, Sir Henry, (235)
Stewart, Mr. Duncan, 478
Stone, Artificial Building, made from Infusorial Earth, (345)
Stott, Mr. Chas., (279)
Strains and Annealing, Mr. W. Campbell, 65
Stresses in Thin Cylinders subjected to Internal Pressure, by A. T. Weston, 298
Suction Gas Plant, Efficiency of a, 532
Sugar in Madeira, The Hinton-Naudet Process for the Manufacture of, (299)
Sulphur Mining Industry, The Sicilian, and Exports to other Countries, (111)
Superheated Steam and Re-heaters, Mr. L. S. Marks, 29
Superheated Steam, Specific Heat of, R. H. Smith, 25

Supplements:

Engine and Boiler-houses, Hinkaford Pumping Station, South Staffordshire Waterworks, July 22nd, 1904
7500 I.H.P. Triple-expansion, Messrs. Scott and Co., July 1st, 1904
of H.M. Cruiser Black Prince, Thames Ironworks and Shipbuilding Company, December 30th, 1904
Tandem Compound Drop Valve, Ruston, Proctor and Co., Limited, September 2nd, 1904
Lathes, High-speed, Special Supplement, November 4th, 1904, i.-xvi.
Locomotive, Eight-wheels Coupled Goods, Queensland Government Railways, Mr. Geo. B. Nutt, August 5th, 1904
Four-coupled Passenger, London and North-Western, Mr. G. Whale, October 14th, 1904
Mallet Duplex Compound, Baltimore and Ohio Railway, the American Locomotive Company, September 16th and October 7th, 1904
Narrow-gauge, Mexican Railways, Kerr, Stuart and Co., Limited, December 2nd, 1904
Pumping Engine, High Duty, Shanghai Waterworks, Manlove, Alliott and Co., December 16th, 1904
Pumping Plant, Chatham Dockyard, Messrs. Hayward-Tyler and Co., November 18th 1904

SWITZERLAND, Machinery and Vehicles Imported, 1903, (597)
Sydney Harbour Bridge, 153, 154, 155
Syndicates, Steel, (111), (114), 256, (471), 600
Syphon, Non-metallic, (625)

T

TAILINGS Elevators, South Africa, (430)
Taps in America, Standard Sizes Agreed on for, (35)
Tar Coal, Packing of, in Sawdust, (157)
Tariff Commission, The, 86, 89, 121, 137, (432), 478, 529, 603
Tariff Commission and the Iron and Steel Trades, 86—*see* pp. 289, 293, vol. xcvii.
Technical College and School of Pottery at Stoke-on-Trent, Proposed Establishment of, (205), 239
Technical Education in England and Wales, 1902-3, Sum Spent on, (546)

Telegraphy:

Cable from Sitka, Alaska, South, (253)
Iceland and the Faroe Island, (230)
Pacific Cable, Conference Concerning, (182)
Professor Ayrton on, (625)
Report on the Year's Working, (205)
Patents for, taken out in the United States, (253)
Pollak-Virag Rapid Telegraph, The, 596
Sahara, French Telegraph Line Across the Great, (323), (345)
Wireless, America, Another Stride in, (498)
between Buffalo and Cleveland, (157)
between Poldhu and Bari, (646)
Board's Report to the United States Navy, (521)
De Forest System, Message Sent from Chicago to St. Louis, (370)
Drawback connected with, (11)
Marconi, Experiments near Petersburg by means of Portable Apparatus, (205)
National Control of, (471)
No Station may be Established without a Licence from the Postmaster-General, (205)
Stations in France, (498)
Station at Porquerolles, (546)
Station at South Shields, (182)
United States, Control of the Government's Coastal System Awarded to the Navy Department, (134)
Unsuccessful Attempt made by the Indian Government, (471)
War Service, Inaugurated, the *Times*, (419)
and the Eastern Telegraph Company, (157)

Telephony:

English Towns to France, (182)
Glasgow Corporation Accounts for the Year, (111)
Korea, and in China, (11)
Liverpool and the National Telephone Company, (182)
London, Underground System, (571)
Petersburg, Underground Wires, (205)
Tunne's in Chicago, Novel Use for the, (498)

Tenders:

Belgian, for Steel Tramway Rails, Accepted by Yarmouth Town Council, (597)
Invited in Brazil, (203)
Invited for Rasps and Files by the Royal Norwegian Naval Authorities, (521)
London, Brighton, and South Coast Railway Company Invite, for Turbine Steamer, (61)

TESTING Machine, 600,000 lb., (471)
Testing Machine, 300-Ton Universal, Joshua Buckton and Co., 236, 237, 248
Thames, Proposed Barrage of the, 249
Thermo-dynamic Problem, A, 651
Thermometers, Sensitive Platinum, Difficulty in Constructing, (370)

Thomas, jun., Mr. John, (625)
Thorium Nitrate for Gas Mantles Imported into the United States, (419)
Thrashing Machine, An Old, 454
Thrashing Machines, British and American, Imported into Damascus, (276)
Tides and Currents in Canadian Waters, Survey of, 34
Timber, Jarrah, Ravages of Shipworms on, 418
Piles to Concrete, Adhesion of, 167
The United Kingdom Russia's Best Customer for, (205)
Tin-Aluminium Alloy, Behaviour of a Filed and Unfiled Rod of, when Plunged in Cold Water, (253)
in Canada, Discovery of, (230)
Scrap, Electrolytic Methods of Treating, 5, 131
Todd, Major, 106
Ton Weight in the United States? What is a, (323)
